BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-1999-6253]

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public

notice that the Utah Transit Authority (UTA) has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations. FRA assigned the petition Docket Number FRA-1999-6253.

UTA, operator of the TRAX light rail system in Salt Lake City, UT, seeks an extension/partial modification of the current terms and conditions of its current Shared Use waiver of compliance from certain provisions of Title 49. The TRAX system is operated with temporal separation on track owned by UTA and shared partially with Utah Railway Company and Savage Bingham & Garfield Railroad Company freight trains dispatched by UTA. Safety oversight of UTA is the responsibility of the Federal Transit Administration via the Utah Department of Transportation as prescribed in 49 CFR Part 659. UTA was granted the original Shared Use waiver by the FRA Railroad Safety Board on August 19, 1999, for the North-South Line; the waiver was modified on March 25, 2011, to include a portion of the Mid-Jordan extension with its additional new Siemens S70 rolling stock. With this request, UTA is modifying the limits of Shared Use of the North-South Line to reflect the cessation of freight service south of 6100 South as part of the new transit-exclusive Draper Extension to the North-South Line.

Noting these various operational and infrastructure changes occurring on the TRAX system over the last several years, and the associated modifications to the regulatory relief granted by FRA, UTA is requesting that FRA extend the regulatory relief granted to date related to the TRAX system (inclusive of North-South and Bingham Extension portions that feature nightly freight service and thus a connection with the general railroad system) and coordinate that relief so that all such waivers will expire at the same time—5 years from the date of FRA's decision letter. UTA submits that the extension and modifications of the waiver sought are in the public interest and consistent with railroad safety because UTA will adopt specific policies and procedures that will provide a level of safety equivalent to that provided by full compliance with FRA regulations. UTA submits that this request is consistent with the waiver process for Shared Use. See Statement of Agency Policy Concerning Jurisdiction Over the Safety of Railroad Passenger Operations and Waivers Related to Shared Use of the Tracks of the General Railroad System by Light Rail and Conventional Equipment, 65 FR 42529 (July 10, 2000);
