SUPPLEMENTARY INFORMATION:

The Commission proposes to revise two existing systems of records, “Administrative Proceeding Files (SEC–36),” and “Information Pertaining or Relevant to SEC Regulated Entities and Their Activities (SEC–55).”

The Administrative Proceedings Files (SEC–36) records are used in any proceeding where the federal securities laws are in issue or in which the Commission, or past or present members of its staff, is a party or otherwise involved in an official capacity. The SEC–36 system of records contains records on individuals that are involved in administrative proceedings before the SEC, including participants, witnesses, attorneys, and SEC employees. Substantive changes to SEC–36 have been made to the following sections: (1) Categories of Individuals, to clarify specific individuals covered in the records; (2) Categories of Records, to add specific data elements collected on individuals, to include, names, addresses, email addresses, telephone numbers, and fax numbers; (3) Purpose, to state the purpose of the system, which was omitted in the last publication; (4) Authority for Maintenance of the System, to add additional regulatory authority authorizing the collection of information; (5) Routine Uses, to clarify categories of users in two routine uses located at numbers 2 and 13, to delete one routine use previously located at number 2, and to expand by seven routine uses located at numbers 1, 4, and 19–23; and (6) Storage, to expand to include electronic media. Additional minor administrative changes have been made to the Record Source Categories, Retrievability and Safeguards sections, to clarify internal handling practices for the records; and to the Notification, Access and Contesting Procedures sections, to update the Commission’s current address.

The Information Pertaining or Relevant to SEC Regulated Entities and Their Activities (SEC–55) records are used by SEC personnel in connection with their official functions, including but not limited to, conducting examinations for compliance with federal securities law, investigating possible violations of federal securities laws, and other matters relating to SEC regulatory and law enforcement functions. Substantive changes to SEC–55 have been made to the following sections: (1) Name, to clarify the type of records in the system; (2) Categories of Individuals, to clarify the specific individuals covered in the system of records; (3) Categories of Records, modified to include specific data elements collected on individuals,

name, address, telephone number, and email address; and (4) Routine Uses, to expand by one new routine use located at number 22. Additional minor administrative changes have been made to the Safeguards section, to clarify internal handling practices for the records; and to the System Manager(s) and Address Section, to update the Commission’s current address.

The Commission has submitted a report of the revised systems of records to the appropriate Congressional Committees and to the Director of the Office of Management and Budget (“OMB”) as required by 5 U.S.C. 552a(r) (Privacy Act of 1974) and guidelines issued by OMB on December 12, 2000 (65 FR 77677).

Additional minor administrative changes have been made to the Record Source Categories, Retrievability and Safeguards sections, to clarify internal handling practices for the records; and to the Notification, Access and Contesting Procedures sections, to update the Commission's current address.

Purpose: The records are used in any proceeding where the federal securities laws are in issue or in which the Commission, or past or present members of its staff is a party or otherwise involved in an official capacity.

SEC facilities are equipped with security cameras and 24-hour security guard service. The records are kept in limited access areas during duty hours and secured areas at all other times. Security protocols meet the promulgating guidance as established by the National Institute of Standards and Technology (NIST) Security Standards from Access Control to Data Encryption, and Security Assessment & Authorization (SA&A). Records will be maintained in a secure, password-protected electronic system that will utilize commensurate safeguards that may include: firewalls, intrusion detection and prevention systems, and role-based access controls. Additional safeguards will vary by program. All records are protected from unauthorized access through appropriate administrative, operational, and technical safeguards. These safeguards

include: restricting access to authorized personnel who have a “need to know”; using locks; and password protection identification features. Contractors and other recipients providing services to the Commission shall be required to maintain equivalent safeguards.

Compatibility of routine uses: The Privacy Act (5 U.S.C. 552a(a)(7) and (b)(3)) and SEC disclosure regulation (17 CFR 200, Subpart H) permit disclosure of information under a published routine use for a purpose that is compatible with the purpose for which the information was collected.
