Title: REG–132455–11—Reporting of Minimum Essential Coverage (TD 9660—Final)

Abstract: The IRS developed Form 1094–B and Form 1095–B under the authority of IRC section 6055, added by Public Law 111–148, Patient Protection and Affordable Care Act (ACA), section 1502(a). Section 6055(a) requires every health insurance issuer, sponsor of a self-insured health plan, government agency that administers government-sponsored health insurance programs and other entity that provides minimum essential coverage to file annual returns reporting information for each individual for whom minimum essential coverage is provided. Form 1094–B, serves as a transmittal for Form 1095–B, Health Coverage. The burden for the collection of information contained in these final regulations (TD 9660) is reflected in the burden on Form 1094–B and 1095–B.

Transmittal of Health Coverage Information Returns (''aggregator'' filing for insurance companies)—1094–B: Filing Form 1094–B is voluntary for tax year 2015 and the number of voluntary issuers is uncertain, but it is estimated that there will be 430 issuers. The average time per issuer of 10 minutes reflects the fact that this is a cover page, there are very few lines to complete, and the information takes minimal effort to obtain.

Health Coverage—1095–B: Filing Form 1095–B is voluntary for tax year 2015 and the number of voluntary filers is uncertain, but the estimated number of issuers is 430. The total number of Form 1095–B (one per insured ''unit'') approaches 4,600,000. The per-document average is slightly higher than Form 1095–A, because the complexity of the required recordkeeping and reporting for Form 1095–B is beyond what is required in standard business practice. On the other hand, the average time per document is on the low side because the information needed to meet the recordkeeping and reporting requirements is maintained for other business reasons. Also, insurance companies are more likely to be large and, therefore, to have lower document-production costs as a result of the scale.

FY 2015	1094–B	1095–B
Total Number of Issuers	430	430
Total Documents Issued	430	4,600,000
Average Documents per Issuer	1	10,698
Average Time per Issuer (Hours)	0.17	200
Average Time per Document (Minutes)	10	1
Total Time—All Issuers (Hours)	72	86,000

Estimated Total Burden Hours: 86,072.

Title: Information Reporting by Applicable Large Employers on Health Insurance Coverage Offered Under Employer-Sponsored Plans (TD 9661—Final)

Abstract: This collection effort contains documents providing guidance to employers that are subject to the information reporting requirements under section 6056 of the Internal Revenue Code (Code), enacted by the Affordable Care Act (generally employers with at least 50 full-time employees, including full-time equivalent employees). Section 6056 requires those employers to report to the IRS information about the health care coverage, if any, they offered to full-time employees, in order to administer the employer shared responsibility provisions of section 4980H of the Code.

Section 6056 also requires employers to furnish related statements to their employees. These statements to employees may be used to determine whether, for each month of the calendar year, the employee may claim on their individual tax returns a premium tax credit under section 36B (premium tax credit). The regulations provide for a general reporting method and alternative reporting methods designed to simplify and reduce the cost of reporting for employers subject to the information reporting requirements under section 6056.

IRC § 6055 states beginning in January 2015, Health Insurance Marketplaces will be required to provide end of year information reporting in the form of information returns. IRC § 6056 states all insurance providers issuing Minimal Essential Coverage and Applicable Large Employers will have the option to begin voluntarily transmitting information returns to meet ACA information reporting requirements in 2015; however, these requirements will become mandatory in January 2016, for the 2015 Tax Year. Section 6011(e)(2)(A) of the Internal Revenue Code provides that any person, including a corporation, partnership, individual, estate, or trust, who is required to file

250 or more information returns, must file such returns electronically.

For the voluntary year of reporting, the burden estimates for each form are listed below.

Form	Number of responses	Time per response	Total hours
4423	6	20 min.	2
1094–B	15,000	4 hrs.	60,000
1095–C	3,850,000	12 min.	750,000
Total			810,002

Estimated Total Burden Hours: 86,072.
