

more than five members, who are eminent authorities in at least one of the following disciplines: Clergy, DoD leadership, human research protection, attorneys with expertise in medical ethics, and military health system beneficiaries. One member must have formal bioethics or medical ethics training or expertise.

The subcommittee, when tasked according to DoD policies and procedures, provides advice on matters pertaining to medical ethics.

e. Trauma and Injury Subcommittee: This subcommittee will be comprised of not more than 10 members, who are eminent authorities in at least one of the following disciplines: Civilian or military trauma medicine systems.

The subcommittee, when tasked according to DoD policies and procedures, provides advice on matters pertaining to trauma and injury, to include methods for prevention, recognition, clinical management, and treatment.

The Board's Designated Federal Officer (DFO) must be a full-time or permanent part-time DoD officer or employee, appointed in accordance with established DoD policies and procedures. The Board's DFO is required to attend at all meetings of the Board and its subcommittees for the entire duration of each and every meeting. However, in the absence of the Board's DFO, a properly approved Alternate DFO, duly appointed to the Board according to established DoD policies and procedures, must attend the entire duration of all meetings of the Board and its subcommittees.

The DFO or the Alternate DFO, calls all meetings of the Board and its subcommittees; prepares and approves all meeting agendas; and adjourn any meeting when the DFO, or the Alternate DFO, determines adjournment to be in the public interest or required by governing regulations or DoD policies and procedures.

Pursuant to 41 CFR 102-3.105(j) and 102-3.140, the public or interested organizations may submit written statements to Defense Health Board membership about the Board's mission and functions. Written statements may be submitted at any time or in response to the stated agenda of planned meeting of the Defense Health Board.

All written statements shall be submitted to the DFO for the Defense Health Board, and this individual will ensure that the written statements are provided to the membership for their consideration. Contact information for the Defense Health Board DFO can be obtained from the GSA's FACA

Database—<http://www.facadatabase.gov/>.

The DFO, pursuant to 41 CFR 102-3.150, will announce planned meetings of the Defense Health Board. The DFO, at that time, may provide additional guidance on the submission of written statements that are in response to the stated agenda for the planned meeting in question.

Revision to Military Freight Traffic Unified Rules Publication (MFTURP) NO. 1, Section F, Air Transportation Service Provider Rules and Domestic Air Tender Freight Carrier Registration Program (FCRP)

AGENCY: Department of the Air Force, Department of Defense.

SUMMARY: On September 3, 2014, Air Mobility Command (AMC) published a 30-day public notice in the **Federal Register (Federal Register** Volume 79, Number 170, Docket No. 2014-20877) to invite public comment on the intent to change Domestic Air Tender Policy within MFTURP No.1 to restrict registration in the FCRP for Domestic Air Tenders to Civil Reserve Air Fleet (CRAF) Transportation Service Providers (TSP) only. At the end of the 30-day comment period, AMC received five responses from transportation industry professionals

ADDRESSEES: *AMC/A4TC, Commercial Services, email: org.amca4-67@us.af.mil.*

SUPPLEMENTARY INFORMATION: Detailed Comments and Responses.

1. Commenters asked for a definition of CRAF. CRAF is a voluntary program through which the nation's airlines provide stand-by commitments of aircraft and crews to support mobilization as a supplement to organic airlift capacity. As an incentive to participate in the CRAF program, air carriers that participate in the CRAF are entitled to participate in the award of DOD's peacetime airlift requirements. A series of presidential executive orders

and memoranda of understanding, the first of which was signed December 15, 1951 formalized the CRAF program. The National Airlift Policy, released in July 1987, reinforced the need for and use of the CRAF program.

2. Commenters expressed concerns with decreased competition and performance, as well as increased cost. Currently, 24 airlines participate in the CRAF program. Competition will continue to exist among CRAF participants as CRAF carriers maintain a commercial network to support and regularly provide commercial less-than-paneload cargo service. Under the policy change, CRAF participants may associate with and use services provided by an agent to meet commercial less-than-paneload service requirements with no limitations placed on the number of agents per CRAF participant. The Government expects fair and reasonable costs under the policy change, since competition will exist within the group of CRAF participants and published rates are readily available.

3. Commenters expressed concern about a negative impact to small business. The Government understands the importance and appreciates the contributions of small businesses. CRAF carriers will have the opportunity to utilize agents, expected to comprise principally small businesses of the sort currently involved in domestic air tender performance, and are encouraged to develop relationships with small business transportation service providers.

4. A commenter expressed agreement with the proposed policy because it promotes continued carrier participation in CRAF at a time when other DOD program business is expected to significantly decline. The Government agrees the change will promote continued CRAF participation and supports keeping vital commercial airlift resources available as a mobilization base in the event of a national or military emergency.

5. A commenter stated that the other programs allocated to CRAF only are sufficient to ensure a healthy CRAF Program. Changes in operational areas and decreasing requirements cause significant decline in business segments across DOD airlift and directly impact programs allocated to CRAF only. The policy change will promote continued CRAF participation as losses are experienced across business segments. Additionally, it will align domestic air tender policy with the long-standing international air tender CRAF eligibility policy.

6. A commenter stated the DOD should develop policies promoting small business cooperation. The Government fully supports the development of small business and utilizes small business throughout the DOD; however, the Government must also support the National Airlift Policy. National Airlift Policy provides that where appropriate, US policies shall be designed to enhance the mobilization base of the US commercial air carrier industry. During peacetime, DOD requirements for passenger and cargo airlift augmentation shall be satisfied by the procurement of airlift from commercial air carriers participating in the CRAF program, to the extent that DOD determines such airlift is suitable and responsive to military requirements.

7. A commenter recommended an impact study to determine effects of the intended change. The Government accomplished a business segment analysis, identified risks and opportunities, discussed policy options in a joint agency environment, and supports the intended effects the change will have on promoting CRAF participation.

8. Commenters presented stand-alone comments on other DOD programs and support they have provided to specific locations. The Government appreciates the support provided in other programs, but notes that the proposed policy is limited to the DOD domestic air tender program and will result in consistent eligibility requirements across all DOD air cargo programs.

Authorized customers of the Army and Air Force Exchange Service information, who provide information relative to any Exchange order or inquiry through an Exchange Catalog or On-Line shopping experience. The Exchange collects information electronically or provided by customers via paper forms completed by the customer or by phone, which allows the Exchange to contact the customer for special events, sales, address customer complaints as well as provide information about shopping at the Exchange. The information provides valuable data to the Exchange, which is used to enhance operations and improve efficiencies of the Exchange marketing program, and to generally enrich the customers' experience. If the Exchange does not receive the data, the Exchange efforts to improve the shopping experience would not be as effective, efficient or useful. Customer information is vital to the efficient and effective maintenance and improvement of Exchange operations.
