SBA provided a 60-day comment period ending on December 15, 2014. In this notice, SBA is extending the comment period an additional 60 days to February 14, 2015.

**DATES:** The comment period for the proposed rule published on October 16, 2014, at 79 FR 62060, is extended through February 14, 2015.

**SUPPLEMENTARY INFORMATION:** In the proposed rule (79 FR 62060), SBA sought public comment on proposed detailed procedures for the suspension and revocation of an Agent's privilege to do business with the United States Small Business Administration (SBA) within a single Part of the Code of Federal Regulations; removing 8(a) program specific procedures for Agent suspension and revocation; clarifying existing and related regulations as to suspension, revocation, and debarment; and removing Office of Hearings and Appeals jurisdiction over Agent suspensions and revocations and government-wide debarment and suspension actions. The proposed rule would also conform SBA suspension and revocation procedures for Agents with general government-wide non-procurement suspension and debarment procedures. SBA provided a 60-day comment period ending on December 15, 2014.

SBA has received requests for an extension of the comment period from two trade associations that represent participants in SBA's business loan programs and one comment on the substance of the proposed rule. SBA believes that the Agency and affected parties will benefit from more public input before it finalizes any changes. Therefore, SBA is extending the comment period through February 14, 2015. This will also give more time to affected businesses and interested parties to review the proposed changes and prepare their comments to the proposed rule.

Dated: December 5, 2014.

#### The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) Part 71 by establishing Class E en route domestic airspace extending upward from 1,200 feet above the surface at the Maxwell VORTAC navigation aid, Maxwell, CA. This action would contain aircraft while in IFR conditions under control of Oakland ARTCC by vectoring aircraft from en route airspace to terminal areas.

Class E airspace designations are published in paragraph 6006, of FAA Order 7400.9Y, dated August 6, 2014, and effective September 15, 2014, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in this Order.

The FAA has determined this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation; (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106, describes the authority for the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would establish controlled airspace at the Maxwell VORTAC, Maxwell, CA.

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1E, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.
