

385.207(a)(2) (2014), Pivotal LNG, Inc. submitted a petition for declaratory order seeking a ruling that certain existing liquefied natural gas (LNG) production facilities, not otherwise subject to the Commission's jurisdiction under section 3 of the Natural Gas Act (NGA), 15 U.S.C. 717b (2012), would not be deemed "LNG terminal[s]," as that term is defined in section 2(11) of the NGA, *id.* 717a(11), by virtue of the production or sale of LNG that is subsequently exported, or re-sold for ultimate export, by a third party, all as more fully explained in the petition.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. Anyone filing a motion to intervene or protest must serve a copy of that document on the Petitioner.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov), or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

*Comment Date:* 5:00 p.m. Eastern Time on December 31, 2014.

Dated: December 16, 2014.

**Kimberly D. Bose,**  
Secretary.

### Federal Energy Regulatory Commission

[Project No. 2629-014-Vermont]

#### Village of Morrisville, Vermont; Notice of Availability of Final Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the application for license for the multi-development Morrisville Hydroelectric Project, located on the Green River, Elmore Pond Brook, and Lamoille River in Lamoille County, Vermont, and has prepared a final Environmental Assessment (EA) for the project. The project does not occupy any federal land.

The final EA contains the staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the final EA is on file with the Commission and is available for public inspection. The final EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number, excluding the last three digits in the docket number field, to access the document. For assistance, contact FERC Online Support at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or toll-free at 1-866-208-3676, or for TTY, (202) 502-8659.

You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

For further information, contact Steve Kartalia at (202) 502-6131 or [Stephen.Kartalia@ferc.gov](mailto:Stephen.Kartalia@ferc.gov).

Dated: December 16, 2014.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. CP13-552-000 and Docket No. CP13-553-000]

#### Sabine Pass Liquefaction Expansion, LLC; Sabine Pass Liquefaction, LLC; Sabine Pass LNG, L.P.; Cheniere Creole Trail Pipeline, L.P.; Notice of Availability of the Environmental Assessment for the Proposed Sabine Pass Liquefaction Expansion Project and Cheniere Creole Trail Pipeline Expansion Project

December 12, 2014.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Sabine Pass Liquefaction Expansion Project (SPLE Project) proposed by for Sabine Pass Liquefaction Expansion, LLC; Sabine Pass Liquefaction, LLC; and Sabine Pass LNG, L.P. (collectively referred to as Sabine Pass), and for the and Cheniere Creole Trail Pipeline Expansion Project (CCTPL Expansion Project) proposed by Cheniere Creole Trail Pipeline, L.P. (CCTPL) in the above-referenced dockets. Sabine Pass requests authorization to expand the existing Sabine Pass Liquefied Natural Gas (SPLNG) Terminal in Cameron Parish, Louisiana, by adding two liquefaction trains (Trains 5 and 6) capable of processing about 1.4 billion cubic feet per day (Bcf/d) of natural gas and to export about 9 million metric tons of liquefied natural gas (LNG) per annum via LNG carriers. CCTPL requests authorization to expand and extend the existing CCTPL pipeline system to enable it to provide an additional 1.5 Bcf/d of transportation capacity to the SPLNG Terminal. The CCTPL Expansion Project would add about 104.3 miles of 42- and 36-inch-diameter pipeline, including two loops (Loop 1 and Loop 2), an Extension, and three laterals; a new compressor station; and four metering and regulating (M&R) stations. These facilities would be in Cameron, Calcasieu, Beauregard, Allen, and Evangeline Parishes, Louisiana.

The EA assesses the potential environmental effects of the construction and operation of the SPLE Project and CCTPL Expansion Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The U.S. Department of Energy, U.S. Department of Transportation, U.S. Army Corps of Engineers, and U.S. Environmental Protection Agency participated as cooperating agencies in the preparation of the EA. Cooperating agencies have jurisdiction by law or special expertise with respect to resources potentially affected by the proposal and participate in the NEPA analysis.

The proposed SPLE Project includes the following facilities:

- Two LNG liquefaction trains;
- additional power generation (two gas turbine generators capable of generating approximately 30 megawatts of power);
- other infrastructure and modifications (including five recycle boil-off gas compressors, three instrument air compressor packages, two demineralizer units, one demineralized water tank, and two diesel-powered standby generators);
- modification of terminal facilities; and
- new and remodeled buildings.

The proposed CCTPL Expansion Project includes the following facilities:

- Loop 1, about 13.9 miles of 42-inch-diameter pipeline;
- Loop 2, about 24.5 miles of 42-inch-diameter pipeline;
- Extension, about 48.5 miles of 42-inch-diameter pipeline;
- Laterals, four 36-inch-diameter pipelines of 0.2, 1.7, 4.0, and 11.5 miles in length;
- new or modified compressors at the Gillis Compressor Station;
- a new Mamou Compressor Station;
- four new M&R Stations;
- pig launchers/receivers; and
- mainline valves.

The FERC staff mailed copies of the EA to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; newspapers and libraries in the project area; and parties to this proceeding. In addition, the EA is available for public viewing on the FERC's Web site ([www.ferc.gov](http://www.ferc.gov)) using the eLibrary link. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street NE., Room 2A, Washington, DC 20426, (202) 502-8371.

Any person wishing to comment on the EA may do so. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or

lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that the Commission has the opportunity to consider your comments prior to making its decision on this project, it is important that we receive your comments in Washington, DC on or before January 12, 2015.

For your convenience, there are three methods you can use to file your comments to the Commission. In all instances, please reference the project docket numbers (CP13-552-000 and CP13-553-000) with your submission. The Commission encourages electronic filing of comments and has expert staff available to assist you at (202) 502-8258 or [efiling@ferc.gov](mailto:efiling@ferc.gov).

(1) You can file your comments electronically using the eComment feature on the Commission's Web site ([www.ferc.gov](http://www.ferc.gov)) under the link to Documents and Filings. This is an easy method for submitting brief, text-only comments on a project;

(2) You can also file your comments electronically using the eFiling feature on the Commission's Web site ([www.ferc.gov](http://www.ferc.gov)) under the link to Documents and Filings. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on "eRegister." You must select the type of filing you are making. If you are filing a comment on a particular project, please select "Comment on a Filing"; or

(3) You can file a paper copy of your comments by mailing them to the following address: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Room 1A, Washington, DC 20426.

Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the Commission's Rules of Practice and Procedures (18 CFR 385.214).<sup>1</sup> Only intervenors have the right to seek rehearing of the Commission's decision. The Commission grants affected landowners and others with environmental concerns intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which no other party can adequately represent. Simply filing environmental comments will not give you intervenor status, but you do not need intervenor status to have your comments considered.

Additional information about the project is available from the

<sup>1</sup> See the previous discussion on the methods for filing comments.

Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC Web site ([www.ferc.gov](http://www.ferc.gov)) using the eLibrary link. Click on the eLibrary link, click on "General Search," and enter the docket number excluding the last three digits in the Docket Number field (*i.e.*, CP13-552). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at [FercOnlineSupport@ferc.gov](mailto:FercOnlineSupport@ferc.gov) or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659. The eLibrary link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to [www.ferc.gov/docs-filing/esubscription.asp](http://www.ferc.gov/docs-filing/esubscription.asp).
