

required of the rural sub-recipients. Additionally, they also report contact information, funding allocation information, a revenue vehicle inventory, the number of stations and maintenance facilities, and total injuries, fatalities, and safety incidents. The reports are also required to be reviewed by an auditor and certified by the CEO. Systems with this waiver are also exempt from the Monthly and Safety & Security Modules. FTA estimates that completing a report for a Small Systems Waiver requires approximately 27 hours, including time to assemble the information and respond to validation questions from FTA about the report.

*Estimated Total Annual Urban Burden:* 11,400 hours.

*Frequency:* Annually.

*NTD Annual Module—Full Reports:* FTA expects about 550 transit systems to file complete reports.

*Estimated Annual Burden:* The Full Report to the Annual Module is comprehensive. Basic contact information, as well as information on sub-recipients and purchased transportation contracts must be provided. Sources of funds for operating expenses and capital expenses must be provided, as well as detailed operating and capital expenses for each mode by function and object class. Key service data collected includes vehicle revenue miles, vehicle revenue hours, unlinked passenger trips, and passenger miles traveled; these must be provided by average, weekday, average Saturday, average Sunday, and as an annual total. Most systems that do not inherently collect passenger mile information (such as a ferryboat or commuter rail) must conduct random sampling for passenger mile information. Large systems with more than 100 vehicles are required to sample for passenger miles every year, whereas smaller systems are only required to sample every third year. A comprehensive revenue vehicle inventory is collected, as well as information on fixed guide-way mileage, passenger stations, maintenance facilities, fuel consumption, employee hours, and maintenance breakdowns. Reports are also required to be reviewed by an auditor and certified by the system CEO.

Approximately 100 large systems are required to sample for passenger miles each year and approximately 450 mid-size systems sample every three years. FTA estimates that it takes approximately 340 hours per year to sample for passenger miles, which is amortized over three years for mid-sized systems. FTA estimates that completing the remaining financial, operating,

resource, and capital asset information requires approximately 250 hours per year per transit system, including gathering the information, completing the forms, and responding to validation questions.

*Estimated Total Burden:* 222,500 hours.

*Frequency:* Annually.

*NTD Monthly Module:* FTA expects about 550 transit systems to report to the Monthly Module.

*Estimated Annual Burden:* Each month, vehicle revenue miles, vehicle revenue hours, unlinked passenger trips, and vehicles operated in maximum service are submitted to the Monthly Module. FTA estimates that it takes approximately 4 hours each month for each system to report the data, including collecting and assembling the data for each mode, filling out the form, and responding to any validation questions in regards to the data.

*Estimated Total Annual Urban Burden:* 26,400 hours.

*Frequency:* Monthly.

*NTD Safety Event Reporting Module:* FTA expects about 550 transit systems to report to the Safety & Security Module.

*Estimated Annual Burden:* Each system provides an annual report on the total number of system security personnel, and an annual CEO certification of the safety data. Each month, systems provide a summary report of all minor fires and all incidents resulting in single-person injuries due to slips, falls, or electrical shocks. Additionally, systems must provide a detailed report within 30 days of any incident involving one or more fatalities, one or more injuries, or total property damage in excess of \$25,000. FTA currently receives about 6,000 major incident reports per year, and estimates that it takes on average about 2 hours to collect data for each incident, enter it into the NTD, and respond to any validation question. Additionally, FTA estimates that each of the 550 full reporters spend on average one hour each month completing the minor incident summary reports.

*Estimated Total Annual Urban Burden:* 18,600 hours.

*Frequency:* Monthly.

*Total Annual NTD Burden:* 304,900 hours.

**OMB Control No.:** 2132-0574.

**Background:** Section 3021 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act—A Legacy for Users (SAFETEA-LU), as amended, established the Paul S. Sarbanes Transit in Parks Program (Transit in Parks Program—49 U.S.C. 5320). The program is administered by FTA in partnership with the Department of the Interior (DOI) and the U.S. Department of Agriculture's Forest Service. The program provides grants to Federal land management agencies that manage an eligible area, including but not limited to the National Park Service, the Fish and Wildlife Service, the Bureau of Land Management, the Forest Service, the Bureau of Reclamation; and State, tribal and local governments with jurisdiction over land in the vicinity of an eligible area, acting with the consent of a Federal land management agency, alone or in partnership with a Federal land management agency or other governmental or non-governmental participant. ### Alcohol and Tobacco Tax and Trade Bureau (TTB)

**OMB Number:** 1513-0006.

**Type of Review:** Extension of a currently approved collection.

**Title:** Applications—Volatile Fruit-Flavor Concentrate Plants, TTB REC 5520/2.

**Form:** TTB F 5520.3.

**Abstract:** Persons who wish to establish premises to manufacture volatile fruit-flavor concentrates are required to file an application and keep records to support the manufacture of these concentrates. TTB uses the application information to identify persons responsible for such manufacture, since these products contain ethyl alcohol and have potential for use as alcoholic beverages with consequent loss of revenue. The application constitutes registry of a still, a statutory requirement. TTB uses the records to ensure that the concentrates are manufactured properly.

**Affected Public:** Private Sector: Businesses or other for-profits.

**Estimated Annual Burden Hours:** 160.

**OMB Number:** 1513-0022.

**Type of Review:** Extension of a currently approved collection.

**Title:** Annual Report of Concentrate Manufacturers and Usual and Customary Business Records-Volatile Fruit-Flavor Concentrate, TTB REC 5520/1.

**Form:** TTB F 5520.2.

**Abstract:** As authorized by 26 U.S.C. 5511, manufacturers of volatile fruit-flavor concentrate must provide reports as necessary to ensure the protection of the revenue. The report, TTB F 5520.2, accounts for all concentrates manufactured, removed, or treated so as to be unfit for beverage use. TTB requires this information to verify that alcohol is not being diverted, thereby jeopardizing tax revenues. The records used to compile this report are usual and customary business records that the manufacturer would maintain in the course of doing business. These reports and records must be retained for 3 years from the date prepared or 3 years from the date of the last entry, whichever is later.

**Affected Public:** Private Sector: Businesses or other for-profits.
