

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes that the proposed rule change will promote competition in that the routing parameters assist with the maintenance of a fair and orderly market and help to mitigate potential risks associated with orders executing at potentially erroneous prices or inconsistent with a particular investment strategy by routing certain orders based on various parameters prescribed by the Exchange or the order entry firm itself. The Exchange also views these routing parameters as important tools to assist order entry firms in their ability to efficiently manage, process and execute orders in a "hybrid" trading environment. The Exchange believes this, again, promotes fair and orderly markets, as well as assists the Exchange in its ability to effectively attract order flow and liquidity to its market, and ultimately benefits all CBOE TPHs and all investors. Thus, the Exchange does not believe the proposal creates any significant impact on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not:

- A. Significantly affect the protection of investors or the public interest;
- B. impose any significant burden on competition; and
- C. become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may

underlying stock is higher (e.g., Apple Inc. closed at \$128.715 on February 18, 2015). The Exchange believes that application of the limit order price parameters in these circumstances may serve as more of a hindrance to the orderly processing orders (e.g., application of the parameters may result in an inordinate number of orders being excepted from automated process and instead routing for manual handling) and, as a result, has determined to not apply the parameter to option class AAPL for the time being. The Exchange believes that because of these factors different treatment of the AAPL class is warranted. However, the Exchange may evaluate whether to apply the parameters to the option class and any determination to do so would be announced via Regulatory Circular.

designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act²⁹ and Rule 19b-4(f)(6)³⁰ thereunder.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.
