

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/fund/grant/apply/appforms/appforms.html.

4. *Performance Measures:* To evaluate the overall success of this program, the Department has established three performance measures that assess progress toward our strategic goal of ensuring that data are available to inform educational decisions by supporting States' development and implementation of Statewide longitudinal data systems. The Department measures: (1) The number of States that link K–12 data with early childhood data; (2) the number of States that link K–12 data with postsecondary data; and (3) the number of States that link K–12 and postsecondary data with workforce data. In addition, grantees will be expected to report in their annual and final performance reports on their progress in achieving the project objectives proposed in their grant applications and on the status of their development and implementation of a Statewide longitudinal data system.

5. *Continuation Awards:* In making a continuation award under 34 CFR 75.253, the Secretary considers, among other things: Whether a grantee has made substantial progress in meeting

the goals and objectives of the project; whether the grantee has expended funds in a manner that is consistent with its approved application and budget; and, if the Secretary has established performance measurement requirements, the performance targets in the grantee's approved application. In making a continuation grant, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. AD04–4–002]

Panel Member List for Hydropower Licensing Study Dispute Resolution; Notice Requesting Applications for Panel Member List for Hydropower Licensing Study Dispute Resolution

This notice requests applications from those interested in being listed as potential panel members to assist in the Federal Energy Regulatory Commission's (Commission) study dispute resolution process for the integrated licensing process of hydropower projects.

Background

The Commission's integrated licensing process (ILP) regulations pertaining to hydroelectric licensing under the Federal Power Act encourages informal resolution of study disagreements. In cases where this is not successful, a formal study dispute resolution process is available for state and federal agencies or Indian tribes with mandatory conditioning authority.¹

The ILP provides that the disputed study must be submitted to a dispute resolution panel consisting of a person from Commission staff, a person from the agency or Indian tribe referring the dispute to the Commission, and a third person selected by the other two panelists from a pre-established list of persons with expertise in the disputed resource area.² The third panel member (TPM) will serve without compensation, except for certain allowable travel expenses to be borne by the Commission.

The role of the panel members is to make a finding, with respect to each disputed study request, on the extent to which each study criteria set forth in the

¹ See § 5.14 of the final rule, which may be viewed on the Commission's Web site at http://www.access.gpo.gov/nara/cfr/waisidx_06/18cfr5_06.html.

² These persons must not be otherwise involved with the proceeding.

regulations is or is not met,³ and why. The panel will then make a recommendation to the Director of the Office of Energy Projects based on the panel's findings.

TPMs can only be selected from a list of qualified persons (TPM List) that is developed and maintained by the Commission. This notice seeks additional members for the TPM list, which was originally compiled in 2004 and 2010. Current members of the TPM list do not need to reapply, but are encouraged to update their resumes. Each qualified panel member will be listed by area(s) and sub-area(s) of technical expertise, for example Fisheries Resources—instream flow. The TPM list and qualifications will be available to the public on the Commission's Web site. All individuals submitting their applications to the Commission for consideration must meet the Commission's qualifications.

Application Contents

The applicant should describe in detail his/her qualifications in items 1–4 listed below.
