The information pertaining to the FCC Telework Program includes electronic records, files, and data and paper documents, records, and files. HRM and the B/O will jointly manage these electronic data and paper document files:

1. The electronic data will be stored in the computer files housed in the FCC's computer network databases.

2. The paper documents, files and records will be stored in filing cabinets in the HRM office suite and, in the appropriate B/O files, as applicable for teleworking employees.

The FCC requires that these computer network databases be protected by various security protocols and safeguards, which include, but are

not limited to, controlled access, passwords, and other security features. In addition, data in the network servers are routinely backed-up. The servers are stored in a secured environment to protect the data.

The paper documents, including all forms and related documentation, are maintained in file cabinets that are located in HRM and B/Os. The file cabinets are locked when not in use and at the end of the business day. Access to these files is restricted to authorized HRM, B/O supervisors, staff, and contractors. Only authorized staff may be granted access to contact rosters. Paper copies of such rosters must be under the control of the employee or locked in a secure container when not in use. Safeguards in place adhere to Federal standards, including the National Institute of Standard and Technology (NIST) and FCC standards.

**RETENTION AND DISPOSAL:**

The National Archives and Records Administration (NARA) has not established a records schedule for the information in the FCC Telework Program. Consequently, the FCC will maintain the information in the telework program files until NARA approves the appropriate records schedule.
