[Docket No. CP15–118–000]

Transcontinental Gas Pipe Line Company, LLC; Notice of Application

Take notice that on March 23, 2015, Transcontinental Gas Pipe Line Company, LLC (Transco), 2800 Post Oak Boulevard, Houston, Texas 77056, filed in the above referenced docket an application pursuant to section 7(c) of the Natural Gas Act (NGA), and Part 157 of the Commission's regulations requesting authorization to construct and operate the Virginia Southside Expansion Project II (Project). Specifically, the Project will enable Transco to provide 250,000 dekatherms per day (Dth/d) of incremental firm transportation service to one shipper, Virginia Power Services Energy Corp., Inc., all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (866) 208–3676 or TTY, (202) 502–8659.

Any questions concerning this application may be directed to Derrick Hughey, Senior Regulatory Analyst, P.O. Box 1396, Houston, Texas 77251, by telephone at (713) 215–2450.

Transco states that, the firm transportation service on the Project will be rendered by Transco pursuant to Rate Schedule FT of Transco's FERC Gas Tariff and Transco's blanket certificate under Part 284(G) of the Commission's Regulations. Transco states that the Project will involve the construction and operation of 4.33 miles of new 24-inch diameter pipeline facilities, 21,830 horsepower of gas turbine driven compression, 25,000 horsepower of electric motor driven compression and the construction or modification of associated aboveground and underground facilities. The cost of the project will be approximately \$190.8 million.

Pursuant to section 157.9 of the Commission's rules (18 CFR 157.9), within 90 days of this Notice, the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit five copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

Comment Date: April 22, 2015.

Dated: April 1, 2015.

Kimberly D. Bose,
Secretary.

f. *Filed Pursuant to:* Standard Article 16

g. *Licensee Contact Information:* Mr. Richard Berteau, 369 San Miguel Dr. Suite 300 Newport Beach, CA 92660, (714) 640-1982.

h. *FERC Contact:* M. Joseph Fayyad, (202) 502-8759, mo.fayyad@ferc.gov

i. *Deadline for filing comments and protests is 30 days from the issuance date of this notice by the Commission. Please file your submittal electronically via the Internet (eFiling) in lieu of paper. Please refer to the instructions on the Commission's Web site under <http://www.ferc.gov/docs-filing/efiling.asp> and filing instructions in the Commission's Regulations at 18 CFR 385.2001(a)(1)(iii). To assist you with eFilings you should refer to the submission guidelines document at <http://www.ferc.gov/help/submission-guide/user-guide.pdf>. In addition, certain filing requirements have statutory or regulatory formatting and other instructions. You should refer to a list of these "qualified documents" at <http://www.ferc.gov/docs-filing/efiling/filing.pdf>. You must include your name and contact information at the end of your comments. Please include the project number (10852-007) on any documents or motions filed. The Commission strongly encourages electronic filings; otherwise, you should submit an original and seven copies of any submittal to the following address: The Secretary, Federal Energy Regulatory Commission, Mail Code: DHAC, PJ-12, 888 First Street NE., Washington, DC 20426.*

j. *Description of Project Facilities:* (a) An existing diversion dam on the West Fork Carson River with a headgate structure; (b) the Heimsoth Upper West Ditch, discharging into (c) an irrigation-

stock pond; (d) a 5-foot-high concrete intake box with a fish-debris screen; (e) two 850-foot-long penstocks, one 8 inches and one 16 inches in diameter; (f) a 28-foot by 12-foot wood frame powerhouse containing two generating units rated at 80-kilowatts and 15-kilowatts, operating under a head of 130 feet; (g) an 800-foot-long, 480-volt underground transmission line, connecting to the reversible ranch meter, the point of connection with the existing Sierra Pacific Power Company line; and (h) related facilities.

k. *Description of Proceeding:* The licensee is in violation of Article 16 of its license, which was granted November 30, 1990 (53 FERC ¶ 62,202). Article 16 states in part: If the Licensee shall abandon or discontinue good faith operation of the project or refuse or neglect to comply with the terms of the license and the lawful orders of the Commission, the Commission will deem it to be the intent of the Licensee to surrender the license.

Commission records indicate that the project was transferred to Mr. Richard Berteau by a Commission order issued May 6, 1991 (55 FERC ¶ 62,108). Since that time, the licensee (Mr. Berteau) has sold the project to Bently Family Limited Partnership around January 1999, without getting our approval for a transfer of license. Since then, the project stopped operating around the end of 1999. The Commission's San Francisco Regional Office has had several correspondences with the new owner and requested a plan and schedule to return the project to operation and to complete a formal request for a transfer of the license to the Bently Family Limited Partnership. Nothing was filed. On January 20, 2015, staff sent the licensee (Mr. Berteau), to his mailing address on record, a letter requiring the filing within 30 days, of an application for a transfer of license and a plan and schedule for restoring the operation of the project or an application to surrender the project's license. Staff also sent a copy of the letter to the Bently Family Limited Partnership. The letter stated that if no response is filed, the Commission will take action to terminate license by implied surrender pursuant to the Commission's regulations at 18 CFR 6.4. The letter to the licensee was returned due to lack of a forwarding address. Nothing was filed.

l. This notice is available for review and reproduction at the Commission in the Public Reference Room, Room 2A, 888 First Street NE., Washington, DC 20426. The filing may also be viewed on the Commission's Web site at <http://www.ferc.gov/docs-filing/elibrary.asp>.
