SUPPLEMENTARY INFORMATION: The Maryland Transportation Authority, who owns and operates this drawbridge, has requested a temporary deviation from the current operating regulations set out in 33 CFR 117.557 to facilitate an interim structural inspection and an in-depth electrical/mechanical inspection.

Under the regular operating schedule, the I-695 Bridge draw must open on signal if at least one hour notice is given. The bridge has a vertical clearance in the closed position to vessels of 58 feet above mean high water.

Under this temporary deviation, the drawbridge will be maintained in the closed to navigation position daily between 8 a.m. and 5 p.m. but will be able to open for navigation with a 2 hour advance notice by contacting (410) 354-1374 or utilizing VHF Channel 13/16.

The bridge will operate under the normal operating schedule at all other times. Emergency openings can be provided with advance notice by contacting (410) 354-1374 or utilizing VHF Channel 13/16. There are no alternate routes for vessels transiting this section of the Curtis Creek.

Curtis Creek is used by a variety of vessels including military, tugs, commercial, and recreational vessels. The Coast Guard has carefully coordinated the restrictions with these waterway users. The Coast Guard will also inform additional waterway users through our Local and Broadcast Notice to Mariners of the closure periods for the bridge so that vessels can arrange their transits to minimize any impacts caused by the temporary deviation. Mariners able to pass under the bridge in the closed position may do so at any time. However, mariners are advised to proceed with caution.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: March 30, 2015.

Bridge Program Manager, Fifth Coast Guard District.
