I. Abstract

The Census Bureau plans to request clearance for the collection of data concerning the School Enrollment Supplement to be conducted in conjunction with the October 2015 CPS. Title 13, United States Code, Sections 141 and 182, and Title 29, United States Code, Sections 1-9, authorize the collection of the CPS information. The Census Bureau and the Bureau of Labor Statistics (BLS) sponsor the basic annual school enrollment questions, which have been collected annually in the CPS for 50 years.

This survey provides information on public/private elementary school, secondary school, and college enrollment, and on characteristics of private school students and their families, which is used for tracking historical trends, policy planning, and support.

This survey is the only source of national data on the age distribution and family characteristics of college students and the only source of demographic data on preprimary school enrollment. As part of the federal government's efforts to collect data and provide timely information to local governments for policymaking decisions, the survey provides national trends in enrollment and progress in school.

SUMMARY: The Department of Commerce (“the Department”) is conducting a new shipper review (“NSR”) of the antidumping duty order on crystalline silicon photovoltaic cells, whether or not assembled into modules (solar cells), from the People's Republic of China (“PRC”). The NSR covers one exporter and producer of subject merchandise, Hengdian Group DMEGC Magnetics Co., Ltd. (“DMEGC”). The

period of review (“POR”) is December 1, 2013, through May 31, 2014. The Department preliminarily determines that DMEGC's sale to the United States was not *bona fide*; therefore, we are preliminarily rescinding this NSR. Interested parties are invited to comment on the preliminary results of this review.
