

Frequency of response: Initially, occasionally, semiannually and annually.

Total estimated burden: 2,800 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$285,000 (per year), includes \$0 for both annualized capital and operation & maintenance costs.

Changes in the Estimates: There is a small adjustment decrease in burden from the previous ICR because we have modified the calculation methodology associated with the five-year repeat performance test requirement. The previous ICR assumed all 14 sources will have to conduct the performance test during the ICR renewal period. Since this requirement only occurs once every five years, we have revised the estimates to reflect this frequency: (14 sources)/(5 years) = 2.8 sources per year. This results in a decrease in the respondent burden.

There is also an increase of six responses due to a correction. The previous ICR did not account for the five-year performance test notifications and reports in calculating the number of responses.

Courtney Kerwin,

Acting-Director, Collection Strategies Division.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHAP for Inorganic Arsenic Emissions From Glass Manufacturing Plants (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), "NESHAP for Inorganic Arsenic Emissions from Glass Manufacturing Plants (40 CFR part 61, subpart N) (Renewal)" (EPA ICR No. 1081.11, OMB Control No. 2060-0043) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). This is a proposed extension of the ICR, which is currently approved through May 31, 2015. Public comments were previously requested via the **Federal**

Register (79 FR 30117) on May 27, 2014 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before June 29, 2015.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2014-0038, to (1) EPA online using www.regulations.gov (our preferred method), by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460, and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT:

Patrick Yellin, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2227A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460; telephone number: (202) 564-2970; fax number: (202) 564-0050; email address: yellin.patrick@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 61, subpart A, and any changes, or additions to the General Provisions specified at 40 CFR part 61, subpart N. Owners or operators of the affected facilities must submit initial notification, performance tests, and periodic reports and results. Owners or operators are also required to

maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

Form Numbers: None.

Respondents/affected entities: Glass manufacturing plants.

Respondent's obligation to respond: Mandatory (40 CFR part 61, subpart N).

Estimated number of respondents: 16 (total).

Frequency of response: Initially, occasionally, semiannually and annually.

Total estimated burden: 3,100 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$365,000 (per year), includes \$56,000 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is no change in the respondent burden hours in this ICR compared to the previous ICR. However, there is an adjustment increase in the estimated labor costs from using more updated labor rates. In addition, there is an adjustment increase in the Agency burden due to a correction. The previous ICR underestimated the number of uncontrolled arsenic emission rate reports reviewed by the Agency. These reports are submitted by 15 of the 16 subject sources. This ICR assumes the Agency reviews reports submitted by all 15 sources.

Courtney Kerwin,

Acting Director, Collection Strategies Division.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Requirements for Generators, Transporters, and Waste Management Facilities Under the RCRA Hazardous Waste Manifest System (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), "Requirements for Generators, Transporters, and Waste

Management Facilities under the RCRA Hazardous Waste Manifest System (Renewal)" (EPA ICR No. 0801.20, OMB Control No. 2050-0039) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). This is a proposed extension of the ICR, which is currently approved through May 31, 2015. Public comments were previously requested via the **Federal Register** (80 FR 8306) on February 17, 2015 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before June 29, 2015.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-RCRA-2014-0925, to (1) EPA online using www.regulations.gov (our preferred method), by email to rcra-docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460, and (2) OMB via email to oira_submission@omb.eop.gov. SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744.

For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: This ICR covers recordkeeping and reporting activities for the hazardous waste manifest paper system, under the Resource Conservation and Recovery Act (RCRA). EPA's authority to require use of a manifest system stems primarily from RCRA 3002(a)(5) (also RCRA Sections 3003(a)(3) and 3004). Regulations are found in 40 CFR part 262 (registrant organizations and generators), part 263 (transporters), and parts 264 and 265 (TSDFs). The manifest lists the wastes that are being shipped and the treatment, storage, or disposal facility (TSDF) to which the wastes are bound. Generators, transporters, and TSDFs handling hazardous waste are required to complete the data requirements for manifests and other reports primarily to: (1) Track each shipment of hazardous waste from the generator to a designated facility; (2) provide information requirements sufficient to allow the use of a manifest in lieu of a Department of Transportation (DOT) shipping paper or bill of lading, thereby reducing the duplication of paperwork to the regulated community; (3) provide information to transporters and waste management facility workers on the hazardous nature of the waste; (4) inform emergency response teams of the waste's hazard in the event of an accident, spill, or leak; and (5) ensure that shipments of hazardous waste are managed properly and delivered to their designated facilities.

On February 7, 2014, EPA published the electronic manifest (e-Manifest) Final Rule. The final rule established new manifest requirements that authorized the use of electronic manifests (or e-Manifests) as a means to track off-site shipments of hazardous waste from a generator's site to the site of the receipt and disposition of the hazardous waste. EPA is taking action now to establish the national e-Manifest system, but unknown variables (e.g., funding contingencies for e-Manifest system development) could delay the actual deployment of the system. Therefore, until EPA announces that the e-Manifest system is available for use in a subsequent **Federal Register** document, all respondents under the information collection requirements covered in this ICR (i.e., hazardous waste generators, transporters, and treatment, storage, and disposal facilities (TSDFs)) must continue to comply with the current paper-based manifest system and use the existing paper manifests forms for the off-site transportation of hazardous waste

shipments. The EPA anticipates that the initial system will become available for use no later than spring 2018.

Form Numbers: Form 8700-22 and 8700-22A.

Respondents/affected entities: Business or other for-profit facilities.

Respondent's obligation to respond: Mandatory (RCRA 3002(a)(5)).

Estimated number of respondents: 83,500.

Frequency of response: Once per shipment.

Total estimated burden: 2,555,959 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$85,553,718 (per year), includes \$2,658,577 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease of 917,618 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease resulted primarily from a decrease in the annual number of generators preparing manifests.

Courtney Kerwin,

Acting Director, Collection Strategies Division.

Proposed Information Collection Request; Comment Request; RFS2 Voluntary RIN Quality Assurance Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency is planning to submit an information collection request (ICR), "RFS2 Voluntary RIN Quality Assurance Program" (EPA ICR No.2473.03, OMB Control No. 2060-0688 to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through December 31, 2017. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.
