II. Background

In November 1980, the Federal Emergency Management Agency issued “Criteria for Preparation and Evaluation of Radiological Emergency Response Plans and Preparedness in Support of Nuclear Power Plants” (NUREG–0654/FEMA–REP–1, Rev. 1) jointly with the Nuclear Regulatory Commission (NRC) as a joint policy document. (45 FR 85862, December 30, 1980).

NUREG-0654/FEMA-REP-1, Rev. 1 was issued as a joint FEMA/NRC policy document that provides guidance on the sixteen Planning Standards referenced in FEMA's regulations at 44 CFR 350.5 and the NRC's regulations at 10 CFR part 50. Both agencies use these Planning Standards to evaluate the adequacy of the emergency plans of commercial nuclear power plant owners and operators, and the emergency plans and preparedness of State and local governments within the Emergency Planning Zones surrounding commercial nuclear power plants.

Since the publication of NUREG-0654/FEMA-REP-1, Rev. 1 in 1980, four supplementary documents and one addendum (66 FR 22270, May 3, 2001) have been issued that update and modify specific planning and procedural elements. These documents are available online at <http://www.regulations.gov> (Docket ID FEMA-2012-0026). FEMA and the NRC are considering revising NUREG-0654/FEMA-REP-1, Rev. 1 to address stakeholder interest and the various emergency planning and preparedness lessons learned since its initial publication.

Since the publication of these documents, there have been changes to FEMA and NRC regulations, guidance, policies and advances in technology. FEMA, working with the NRC, is soliciting comments from stakeholders and interested members of the public on the draft document "Criteria for Preparation and Evaluation of Radiological Emergency Response Plans and Preparedness in Support of Nuclear Power Plants," NUREG-0654/FEMA-REP-1, Rev. 2. The document is available online at <http://www.regulations.gov> (Docket ID FEMA-2012-0026).

FEMA and the NRC held two public meetings on August 22, 2012 and September 13, 2012 as well as two public stakeholder engagement sessions held on October 29-31, 2013 and June 25, 2014. The purpose of these public meetings were to: (1) Solicit input from stakeholders and interested members of the public on the scope of future revisions to NUREG-0654/FEMA-REP-1, Rev.1; (2) describe the proposed timeline for the revisions to NUREG-0654/FEMA-REP-1, Rev.1; (3) promote transparency, public participation, and collaboration during the NUREG-0654/FEMA-REP-1, Rev.1 revision process; and (4) allow direct input to the writing teams during the writing process. All of the presentation material and meeting notes are available to review online at <http://www.regulations.gov> (Docket ID FEMA-2012-0026).

Through this Notice, FEMA and NRC are soliciting comments from stakeholders and interested members of the public on the draft document NUREG-0654/FEMA-REP-1, Rev. 2.

FEMA seeks comment on the draft guidance, which is available online at <http://www.regulations.gov> in Docket ID FEMA-2012-0026. Based on the comments received, FEMA may make appropriate revisions to the draft document. FEMA will consider any comments received in the drafting of the final policy. When FEMA issues a final policy, FEMA will publish a notice of availability in the **Federal Register** and make the final policy available at <http://www.regulations.gov>. The final policy will not impose legally binding requirements.
