ADDRESSES: The SEDAR Procedural Workshop 7 will be held at the Hyatt Regency Atlanta Hotel, 265 Peachtree Street NE., Atlanta, GA 30303; 404-577-1234.

SEDAR address: 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three step process including: (1) Data Workshop; (2) Assessment Process utilizing workshops and webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, the Atlantic and Gulf States Marine Fisheries Commissions and NOAA Fisheries Southeast Regional Office and Southeast Fisheries Science Center. Participants include: Data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

SEDAR also coordinates procedural workshops which provide an opportunity for focused discussion and deliberation on topics that arise in multiple assessments. They are structured to develop best practices for

addressing common issues across assessments. The seventh procedural workshop will develop best practice recommendations for SEDAR Data Workshops.

Workshop objectives include developing an inventory of common or recurring data and analysis issues from SEDAR Data Workshops; documenting how the identified data and analysis issues were addressed in the past and identifying potential additional methods to address these issues; developing and selecting best practice procedures and approaches for addressing these issues in future, including procedures and approaches to follow when deviating from best practice recommendations; and identifying a process to address future revision and evaluation of workshop recommendations, considering all unaddressed data and analysis issues.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.
