It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Formula Grant EASIE Annual Performance Report.

OMB Control Number: 1810-NEW.

Type of Review: A new information collection.

Respondents/Affected Public: State, Local and Tribal Governments.

Total Estimated Number of Annual Responses: 1,300.

Total Estimated Number of Annual Burden Hours: 20,800.

Abstract: The purpose of Indian Education Formula Grant to Local Agencies, as authorized under Title VII, part A, subpart 1 of the Elementary and Secondary Education Act, as amended (sections 7111-7119, 20 U.S.C. 7421-7429) is to assist applicants to provide Indian students with the opportunity to meet the same challenging state standards as all other students and meet the unique educational and culturally related academic needs of American Indian and Alaska Native students. The Indian Education Formula Grant (CFDA 84.060A) is not competitive or discretionary and requires the annual submission of the application from either a local education agency (LEA) and/or tribe. The amount of the award

for each applicant is determined by a formula based on the reported number of American Indian/Alaska Native students identified in the application, the state per pupil expenditure, and the total appropriation available. The 524B Annual Performance Report (APR) was designed for discretionary grants, however the title VII program is a formula grant program. Therefore, the EASIE APR goes beyond the generic 524B APR and facilitates the collection of more specific and comprehensive data due to grantees entering project specific data into an online database. This will allow for a comparison of LEAs across objectives. By entering information into the EASIE APR database, data will be able to be generated quickly and uniformly to facilitate data collection, as required under 34 CFR 75.720, and 2 CFR part 200.301. This APR will improve the quality of data collected that can be used for evaluation and to help make policy decisions, reduce burden on the grantees, and allow ED to inform Congress on the outcomes of this grant program.

Title of Collection: Transition to Teaching Evaluation.

OMB Control Number: 1855-0018.

Type of Review: An extension of an existing information collection.

Respondents/Affected Public: State, Local and Tribal Governments.

Total Estimated Number of Annual Responses: 42.

Total Estimated Number of Annual Burden Hours: 42.

Abstract: This is a request for approval to collect information from Transition to Teaching (TTT) grantees that will be used to describe the extent to which local education agencies that received TTT grant funds have met the goals relating to teacher recruitment and retention described in their application. TTT grantees are funded for a period of five years. Currently, grantees are required by statute to submit an interim project evaluation to the Department of Education (ED) at the end of the third project year and a final project evaluation at the project's end. In turn, the TTT program is required to prepare and submit to the Secretary and to Congress interim and final program evaluations containing the results of these grantee project evaluation reports. An analysis of these reports has provided some data on grantee activities, prior to the usage of the TTT survey, missing or incomplete data made it difficult to aggregate data across grantees in order to accurately describe to Congress the extent of program implementation. This data collection allows ED to gather data on a common set of indicators across grantees in order to describe and improve program implementation with the end goal of improving program performance.
