SUPPLEMENTARY INFORMATION:

A. Purpose

Government contracting officers may include FAR clause 52.222–32, Construction Rate Requirements-Price Adjustment (Actual Method) in fixed-price solicitations and contracts, subject to the Construction Wage Rate Requirements statute under certain conditions. The conditions are that the solicitation or contract contains option provisions to extend the term of the contract and the contracting officer determines that the most appropriate method to adjust the contract price at option exercise is to use a computation method based on the actual increase or decrease from a new or revised Department of Labor Construction Wage Rate Requirements statute wage determination.

The clause requires that a contractor submit at the exercise of each option to extend the term of the contract, a statement of the amount claimed for

incorporation of the most current wage determination by the Department of Labor, and any relevant supporting data, including payroll records, that the contracting officer may reasonably require. The information is used by Government contracting officers to establish the contract price adjustment for the construction requirements of a contract, generally if the contract requirements are predominantly services subject to the Service Contract Labor Standards.

FOR FURTHER INFORMATION CONTACT: Mr. Curtis E. Glover, Sr., Procurement Analyst, Federal Acquisition Policy Division, GSA, telephone 202-501-1448, or via email at curtis.glover@gsa.gov.

SUPPLEMENTARY INFORMATION:

A. Purpose

Under Federal contracts requiring that equipment (e.g., pumps, fans, generators, chillers, etc.) be installed in a project, the Government must determine that the equipment meets the contract requirements. Therefore, the contractor must submit sufficient data on the particular equipment to allow the Government to analyze the item.

The Government uses the submitted data to determine whether or not the equipment meets the contract requirements in the categories of performance, construction, and durability. This data is placed in the contract file and used during the inspection of the equipment when it arrives on the project and when it is made operable.

B. Annual Reporting Burden

The information collection requirement at FAR clause 52.236-5 has increased due to the rounding up of the responses annually from 1.5 to 2.0, as you cannot have .5 of a response per year.

Respondents: 3,160.

Responses Per Respondent: 2.0.

Annual Responses: 6,320.

Hours Per Response: .25.

Total Burden Hours: 1,580.
