

continuing applications and foreign counterparts to Absino Co., Ltd, a company having a place of business in Beijing, China.

The patent rights in these inventions have (a) been assigned to the United States of America, as represented by the Secretary, Department of Health and Human Services who has delegated authority for the licensing of inventions to the National Institutes of Health or (b) been exclusively licensed to the National Institutes of Health.

The prospective start-up exclusive evaluation option license territory may be China, the U.S., and Europe, and the field of use may be limited to the development of bispecific multivalent human immunodeficiency virus type 1 (HIV-1) neutralizing fusion proteins as HIV entry inhibitors for the treatment of HIV infections.

Upon the expiration or termination of the start-up exclusive evaluation option license, Absino Co., Ltd will have the exclusive right to execute an exclusive commercialization license which will supersede and replace the start-up exclusive evaluation option license with no greater field of use and territory than granted in the start-up exclusive evaluation option license.

DATES: Only written comments and/or applications for a license which are received by the NIH Office of Technology Transfer on or before July 8, 2015 will be considered.

ADDRESSES: Requests for copies of the patent application, inquiries, comments, and other materials relating to the contemplated start-up exclusive evaluation option license should be directed to: Sally Hu, Ph.D., M.B.A., Senior Licensing and Patenting Manager, Office of Technology Transfer, National Institutes of Health, 6011 Executive Boulevard, Suite 325, Rockville, MD 20852-3804; Telephone: (301) 435-5606; Facsimile: (301) 402-0220; Email: hus@mail.nih.gov.

SUPPLEMENTARY INFORMATION: The subject technology is HIV-1 entry inhibitors that can neutralize many subtypes of HIV-1 isolates including clade A-E and tropism R5 and X4 (using either CCR5 or CXCR4 co-receptor for entry). These entry inhibitors are fusion proteins and have a potency about 10-fold higher than that of the broadly neutralizing antibody VRC01 that is in Phase I clinical trial, or 50-fold higher than that of the FDA approved HIV entry inhibitor Fuzeon. Therefore, these fusion proteins are promising drug candidates for HIV/AIDS prevention and treatment.

The prospective start-up exclusive evaluation option license will be royalty

bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR part 404. The prospective start-up exclusive evaluation option license may be granted unless within fifteen (15) days from the date of this published notice, the NIH receives written evidence and argument that establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR part 404.

Applications for a license in the field of use filed in response to this notice will be treated as objections to the grant of the contemplated start-up exclusive evaluation option license. Comments and objections submitted to this notice will not be made available for public inspection and, to the extent permitted by law, will not be released under the Freedom of Information Act, 5 U.S.C. 552.

Dated: June 16, 2015.

Richard U. Rodriguez,
Acting Director, Office of Technology Transfer, National Institutes of Health.

National Library of Medicine; Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. App), notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable materials, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Library of Medicine Special Emphasis Panel; Conflicts R01/R21/R13.

Date: July 30, 2015.

Time: 12:00 p.m. to 4:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Library of Medicine, 6705 Rockledge Drive, Suite 301, Bethesda, MD 20817, (Telephone Conference Call).

Contact Person: Zoe E. Huang, MD., Scientific Review Officer, Extramural Programs, National Library of Medicine, NIH, 6705 Rockledge Drive, Suite 301, Bethesda,

MD 20892-7968, 301-594-4937, huangz@mail.nih.gov.
