IV. Other Legal Requirements

Economic Impact (Executive Order 12866): EPA has determined that the issuance of these general permits is not a "significant regulatory action" under the terms of Executive Order 12866 (58 FR 51735, October 4, 1993) and is therefore not subject to formal OMB review prior to proposal.

Paperwork Reduction Act: EPA has reviewed the requirements imposed on regulated facilities in these proposed general permits under the Paperwork Reduction Act of 1980, 44 U.S.C. 501, *et seq.* The information collection requirements of these permits have already been approved by the Office of Management and Budget in submissions made for the NPDES permit program under the provisions of the Clean Water Act.

Unfunded Mandates Reform Act: Section 201 of the Unfunded Mandates Reform Act (UMRA), Public Law 104-4, generally requires federal agencies to assess the effects of their "regulatory actions" defined to be the same as "rules" subject to the Regulatory Flexibility Act (RFA) on tribal, state, local governments and the private sector. Since the permit proposed today is an adjudication, it is not subject to the RFA and is therefore not subject to the requirements of the UMRA.

Authority: Clean Water Act, 33 U.S.C. 1251, *et seq.*

Abstract: Respondents are owners and operators of pesticides active ingredient production operations. Respondents must submit one-time reports of initial compliance and either semiannual reports or quarterly reports of compliance. Recordkeeping of parameters related to process and air pollution control technologies is required. The reports and records will be used to demonstrate compliance with the standards.

Form Numbers: None.

Respondents/affected entities: Owners and operators of pesticides active ingredient production operations.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart MMM).

Estimated number of respondents: 18 (total).

Frequency of response: Initially, quarterly, and semiannually.

Total estimated burden: 12,000 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$1,416,000 (per year), includes \$236,000 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an adjustment decrease in the number of responses because this ICR removes leak detection and repair (LDAR) reports. The regulation requires subject sources to include LDAR information in periodic (*i.e.* semiannual or quarterly) reports. LDAR is not separately reported to EPA; therefore, no additional

responses are associated with this activity.

Acting Director, Collection Strategies Division.
