

The VMS provides effort data and significantly aids in enforcement of areas closed to fishing. All position reports are treated in accordance with NMFS existing guidelines for confidential data. As a condition of authorized fishing for or possession of reef fish or rock shrimp in or from the Gulf exclusive economic zone (EEZ) or South Atlantic EEZ, respectively, vessel owners or operators subject to VMS requirements must allow NMFS, the United States Coast Guard (USCG), and their authorized officers and designees, access to the vessel's position data obtained from the VMS.

NMFS would like to move the collection of information requirement for VMS applicable to vessels with limited access endorsements for South Atlantic rock shrimp under OMB Control No. 0648-0205 to this collection. The burden estimates have changed due to inclusion of the applicable burden from OMB Control No. 0648-0205.
