Final Waiver and Extension of the Project Period; Native Hawaiian Career and Technical Education Program

AGENCY: Office of Career, Technical, and Adult Education, Department of Education.

ACTION: Final waiver and extension of the project period.

SUMMARY: For the 24-month projects funded in fiscal year (FY) 2013 under the Native Hawaiian Career and Technical Education Program (NHCTEP), the Secretary waives the requirements that generally prohibit project period extensions involving the obligation of additional Federal funds. The Secretary also extends the project period of the seven current grants for up to an additional 24 months. This enables the current NHCTEP grantees to request and continue to receive Federal funding annually for project periods through FY 2016 and possibly through FY 2017.

DATES: The waiver and extension of the project period is effective July 7, 2015.

FOR FURTHER INFORMATION CONTACT:

Linda Mayo, U.S. Department of Education, 400 Maryland Avenue SW., Room 11075, Potomac Center Plaza, Washington, DC 20202-7241. Telephone: (202) 245-7792, or by email at: linda.mayo@ed.gov.

call the Federal Relay Service, toll free, at 1-800-877-8339.

SUPPLEMENTARY INFORMATION: On February 10, 2015, we published in the **Federal Register** (80 FR 7379) a proposed waiver of 34 CFR 75.261(a) and (c)(2) and extension of the project period (proposed waiver and extension) in order to—

(1) Enable the Secretary to provide additional funds to the current NHCTEP grantees with FY 2015 funds and possibly FY 2016 funds for project periods through FY 2016 and possibly through FY 2017; and

(2) Request comments on the proposed waiver and extension.

There are no substantive differences between the proposed waiver and extension and the final waiver and extension.

Public Comment: In response to our invitation in the proposed waiver and extension, we received six comments. Generally, we do not address comments that raise concerns not related to the proposed waiver and extension.

Analysis of Comments and Discussion

An analysis of the comments received in response to the proposed waiver and extension follows.

Comment: Almost all commenters supported the proposed waiver and extension of the NHCTEP project period. The commenters provided various reasons for their support of the waiver and extension, including the great need for funding beyond the two-year project period.

One commenter, who supported the proposed waiver and extension, stated that an abrupt suspension in the NHCTEP grantees' training services, as well as outreach, recruitment, academic, and retention efforts, would be detrimental to students who would then have to rely on welfare services instead of vocational training opportunities.

Another commenter stated that the continuity of funding would be a tremendous stabilizing benefit to the program and students. The commenter further stated that NHCTEP grantees have placed students in well-paying jobs with opportunities for advancement and the continuity of support would be more effective in maintaining their high-quality services. The commenter expressed the view that the extension would also help maximize their recruitment efforts, as well as positively affect the direct participation and completion of the Native Hawaiian students enrolled in NHCTEP-funded projects.

Two commenters indicated that the continuation of an existing NHCTEP grantee's program and its consortium of

sub-grantees would allow them to continue to provide valued career and technical education (CTE) services to Native Hawaiian students, including special needs students. Also, the commenters stated that continuation grant awards would allow the consortium to continue providing specialized CTE training that would maximize both the participation and completion of Native Hawaiian students.

Finally, a commenter stated that the proposed waiver and extension would allow NHCTEP-funded projects more time to prepare Native Hawaiian high school students for postsecondary training or the workforce.

Discussion: We appreciate the support of the commenters and agree that extending the current NHCTEP grant period will allow current NHCTEP grantees to continue to work toward accomplishing the goals and objectives stated in their 2013 NHCTEP grant applications, including providing specialized CTE training to Native Hawaiian students. We agree that it is important that there not be a lapse in programming provided by NHCTEP grantees to CTE students.

Changes: None.

Comment: One commenter asked why the Department used the notice and comment procedures of the Administrative Procedure Act (APA) for this proposed waiver and extension. The commenter characterized the waiver and extension as a general statement of policy that would not fall within the APA's notice and comment rulemaking requirements, and inquired as to why the Department treated the waiver and extension differently. The commenter also cited the APA's exception of interpretive rules and statements of policy from the requirement for rules to have an effective date no fewer than 30 days after their date of publication.

Discussion: The APA defines a "rule" as "an agency statement of general or particular applicability and future effect designed to implement, interpret, or prescribe law or policy" and requires agencies to follow notice and comment procedures when formulating, amending, or repealing rules. 5 U.S.C. 551, 553. As the commenter notes, the APA provides some exceptions to this requirement. For instance, absent another statute to the contrary, the APA exempts "interpretative rules, general statements of policy, or rules of agency organization, procedure, or practice" from its notice and comment rulemaking requirements. 5 U.S.C. 553(b)(A). In addition, the APA exempts "matter[s] relating to . . . loans, grants,
