**Additional Public Notification**

Public awareness of all segments of rulemaking and policy development is important. Consequently, FSIS will announce it on-line through the FSIS Web page located at: <http://www.fsis.usda.gov/federal-register>.

FSIS also will make copies of this **Federal Register** publication available through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, and other types of information that could affect or would be of interest to our constituents and stakeholders. The Update is available on the FSIS Web page. Through the Web page, FSIS is able to provide information to a much broader, more diverse audience. In addition, FSIS offers an email subscription service which provides automatic and customized access to selected food safety news and information. This service is available at: <http://www.fsis.usda.gov/subscribe>. Options range from recalls to export information, regulations, directives, and notices. Customers can add or delete subscriptions themselves, and have the option to password-protect their accounts.

**SUPPLEMENTARY INFORMATION:****Background**

On March 30, 2015, the Department of Commerce (Department) initiated antidumping duty investigations on certain polyethylene terephthalate resin from Canada, the PRC, India, and Oman.<sup>1</sup> Section 733(b)(1)(A) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.205(b)(1) state the Department will make a preliminary determination no later than 140 days after the date of the initiation. The current deadline for the preliminary determinations of these investigations is no later than August 17, 2015.

**Postponement of Preliminary Determination**

On July 21, 2015, DAK Americas, LLC, M&G Chemicals, and Nan Ya Plastics Corporation, America (Petitioners) made a timely request, pursuant to 19 CFR 351.205(e), for postponement of the preliminary determinations, in order to give the Department the necessary time to further develop the record in this proceeding through additional questionnaires, which Petitioners will in turn need time to analyze and

possibly comment on. Because there are no compelling reasons to deny Petitioners' request, in accordance with section 733(c)(1)(A) of the Act, the Department is postponing the deadline for the preliminary determinations by 50 days.

For the reasons stated above, the Department, in accordance with section 733(c)(1)(A) of the Act, is postponing the deadline for the preliminary determinations to no later than 190 days after the date on which the Department initiated these investigations. Therefore, the new deadline for the preliminary determinations is October 6, 2015. In accordance with section 735(a)(1) of the Act, the deadline for the final determinations of these investigations will continue to be 75 days after the date of the preliminary determinations, unless postponed at a later date.

This notice is issued and published pursuant to section 733(c)(2) of the Act and 19 CFR 351.205(f)(1).

#### Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Snapper-Grouper Fishery off the South Atlantic States; Amendment 37

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of Intent (NOI) to prepare an environmental impact statement (EIS); request for comments; notice of scoping meetings.

**SUMMARY:** NMFS, Southeast Region, in collaboration with the South Atlantic Fishery Management Council (South Atlantic Council), intends to prepare an EIS to evaluate a range of alternative management actions in association with Amendment 37 to the Fishery Management Plan (FMP) for the Snapper-Grouper Fishery of the South Atlantic Region (Amendment 37). The purpose of this NOI is to solicit public comments on the scope of issues to be addressed in the EIS and to announce a scoping meeting.

**DATES:** The Council will discuss alternatives and take scoping comments

at a public meeting held via webinar beginning at 6 p.m. on August 10, 2015.

Written comments on the scope of issues to be addressed in the EIS will be accepted until August 31, 2015.

**ADDRESSES:** Registration and technical information for the public scoping meeting held via webinar is found under the Scoping Meeting heading below.

Written comments may be submitted on the NOI identified by "NOAA-NMFS-2015-0083" by either of the following methods:

- **Electronic submissions:** Submit electronic comments via the Federal e-Rulemaking Portal. Go to [www.regulations.gov/#!docketDetail;D=NOAA-NMFS-2015-0083](http://www.regulations.gov/#!docketDetail;D=NOAA-NMFS-2015-0083), click the "Comment Now!" icon, complete the required fields, and enter or attach your comments.

- **Mail:** Submit written comments to Nikhil Mehta, NMFS Southeast Regional Office (SERO), 263 13th Avenue South, St. Petersburg, FL 33701.

**Instructions:** Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on [www.regulations.gov](http://www.regulations.gov) without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter "N/A" in the required fields if you wish to remain anonymous).

**SUPPLEMENTARY INFORMATION:** Currently, hogfish are managed under two FMPs. The Gulf of Mexico Fishery Management Council (Gulf of Mexico Council) manages one hogfish stock in the FMP for the Reef Fish Resources of the Gulf of Mexico. The South Atlantic Council manages the other hogfish stock in the FMP for the Snapper-Grouper Fishery of the South Atlantic Region. In August 2014, the Florida Fish and Wildlife Conservation Commission completed a benchmark stock assessment for hogfish as part of the Southeast Data, Assessment, and

Review (SEDAR) process (SEDAR 37). Amendment 37 responds to the August 2014 benchmark stock assessment of hogfish that defined three separate stocks in the South Atlantic and Gulf of Mexico, including one stock that is subject to overfishing and is overfished. Amendment 37 and the associated EIS consider new reference points, status determination criteria, catch levels, and management measures for the two new stocks in the South Atlantic, including a rebuilding plan for the stock that is overfished.

In October 2014, the South Atlantic Council's Scientific and Statistical Committee (SSC) reviewed the stock assessment and provided recommended approaches for calculating fishing level recommendations, which the South Atlantic Council reviewed at their December 2014 meeting. Based on genetic evidence used in the stock assessment, the SSC supported the assessment's approach of defining two separate hogfish stocks in the South Atlantic, one stock off Georgia and North Carolina (GA-NC) and one stock off the Florida Keys and eastern Florida (FLK/EFL), and a third stock in the eastern Gulf of Mexico off the west coast of Florida (WFL).

The SSC determined that the stock assessment for the GA-NC stock does not represent the best scientific information available for determining stock status, *i.e.*, whether the stock is subject to overfishing or is overfished, or for informing management decisions. Instead, they recommended that catch level recommendations for the GA-NC hogfish stock be developed using the Only Reliable Catch Stocks (ORCS) approach set forth in Level 4 of the Council's acceptable biological catch (ABC) control rule. Using the ORCS approach, the ABC for the GA-NC stock recommended by the SSC is 28,161 pounds whole weight (lb ww).

For the FLK/EFL stock, the SSC determined that the benchmark stock assessment represents the best scientific information available and recommended it for use in management decisions. The assessment results indicate the FLK/EFL stock is undergoing overfishing and is overfished.

Amendment 37 and the associated EIS consider and evaluate a number of management actions responding to this new scientific information and the recommendations from the South Atlantic Council's SSC. The management actions include modifying the hogfish management unit from one stock to two separate stocks in the South Atlantic, and defining individual stock boundaries, including the boundary between the FLK/EFL stock managed by
