BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PF15–22–000]

Equitrans, L.P.; Notice of Intent To Prepare an Environmental Impact Statement for the Planned Equitrans Expansion Project, and Request for Comments on Environmental Issues

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will discuss the potential environmental effects of the Equitrans Expansion Project (EEP, or Project) involving construction and operation of facilities by Equitrans, L.P. (Equitrans) in Allegheny, Washington, and Green Counties, Pennsylvania and Wetzell County, West Virginia, in the Commission's environmental impact statement (EIS) currently under preparation for the planned Mountain Valley Pipeline (MVP) Project (FERC Docket No. PF15–3–000). The Project is designed to transport natural gas from the northern portion of Equitrans' system south to a future interconnection with MVP, as well as existing interconnects on the southern portion of Equitrans' system with Texas Eastern Transmission, LP and Dominion Transmission, Inc. Because of the interconnection with MVP, the

Commission staff will evaluate the two projects jointly in the EIS. This EIS will be used by the Commission in its decision-making process to determine whether the MVP and EEP Projects are in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the EEP. You can make a difference by providing us with your specific comments or concerns about the Project. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. Your input will help the Commission staff determine what issues they need to evaluate in the EIS. To ensure that your comments are timely and properly recorded, please send your comments so that the Commission receives them in Washington, DC on or before September 14, 2015.

If you sent comments on the EEP to the Commission before the opening of this docket on April 9, 2015, you will need to re-file those comments in Docket No. PF15–22–000 to ensure they are considered as part of this proceeding. This scoping period is established to receive comments on the EEP, and comments previously filed with the FERC regarding the MVP Project should not be refiled under the EEP docket.

This notice is being sent to the Commission's current environmental mailing list for this Project. State and local government representatives should notify their constituents of this planned Project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, a representative of Equitrans may contact you about the acquisition of an easement to construct, operate, and maintain the planned facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the Commission approves the Project, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings where compensation would be determined in accordance with state law.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" is available for viewing on the FERC Web site (www.ferc.gov). This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to
