

by the venue to which the PO+ Order is routed and the fees charged by the Exchange for such orders. Further, the proposed change is equitable and not unfairly discriminatory because the rebate would apply uniformly across pricing tiers and all similarly situated ETP Holders would be subject to the same credit.

Finally, the Exchange believes that it is subject to significant competitive forces, as described below in the Exchange's statement regarding the burden on competition. For these reasons, the Exchange believes that the proposal is consistent with the Act.

B. Self-Regulatory Organization's Statement on Burden on Competition

In accordance with section 6(b)(8) of the Act,⁸ the Exchange believes that the proposed rule change would not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. In particular, the routing credits would not place a burden on competition because the Exchange is maintaining the existing relationship between the rebate provided by the Exchange for PO+ Order that are routed to the NYSE that provide liquidity on the NYSE and the rebate the NYSE provides to its members that provide liquidity.⁹

The Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues. In such an environment, the Exchange must continually review, and consider adjusting, its fees and credits to remain competitive with other exchanges. For the reasons described above, the Exchange believes that this proposal promotes a competitive environment.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change is effective upon filing pursuant to section 19(b)(3)(A)¹⁰ of the Act and subparagraph (f)(2) of Rule 19b-4¹¹ thereunder, because it establishes a due,

fee, or other charge imposed by the Exchange.

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under section 19(b)(2)(B)¹² of the Act to determine whether the proposed rule change should be approved or disapproved.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, CME included statements concerning the purpose and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. CME has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

CME is registered as a derivatives clearing organization with the Commodity Futures Trading Commission ("CFTC") and operates a substantial business clearing futures and swaps contracts subject to the jurisdiction of the CFTC. CME is proposing to expand the listing schedule for the Urea (Granular) FOB US Gulf Coast Swaps (Clearing Only) contract listed on the CBOT designated contract market, which is available for

submission for clearing via CME ClearPort. More specifically, the CME ClearPort listing schedule as of August 17, 2015 will be amended from 12 consecutive calendar months to 24 consecutive calendar months. CME has determined that the amended listing schedule is more conducive to the needs of market participants.

* * * * *

A summary of the amendments to the Urea (Granular) FOB US Gulf Coast Swaps (Clearing Only) contract's listing schedule is set forth in the following table:

Product title	DCM: CBOT Rulebook chapter	Clearing code	Current CME ClearPort listing schedule	CME ClearPort listing schedule as of August 17, 2015
Urea (Granular) FOB US Gulf Swaps (Clearing Only)	45	UFN	12 consecutive calendar months.	24 consecutive calendar months

* * * * *

The proposed rule changes that are described in this filing are limited to CME's business as a derivatives clearing organization clearing products under the exclusive jurisdiction of the CFTC. CME has not cleared security based swaps and does not plan to and therefore the proposed rule changes do not impact CME's security-based swap clearing business in any way. The proposed changes would become effective immediately. CME notes that it has also submitted the proposed rule changes that are the subject of this filing to its primary regulator, the CFTC, in CME Submission Number 15-290.

CME believes the proposed rule changes are consistent with the requirements of the Exchange Act including Section 17A.⁵ The proposed rules expand the listing schedule for the Urea (Granular) FOB US Gulf Coast

Swaps (Clearing Only) contract, which is available for submission for clearing via CME ClearPort, from 12 consecutive calendar months to 24 consecutive calendar months in response to the needs of market participants. These rule changes are therefore designed to promote the prompt and accurate clearance and settlement of securities transactions and, to the extent applicable, derivatives agreements, contracts, and transactions, to assure the safeguarding of securities and funds which are in the custody or control of the clearing agency or for which it is responsible, and, in general, to protect investors and the public interest consistent with Section 17A(b)(3)(F) of the Exchange Act.⁶

Furthermore, the proposed changes are limited to CME's futures and swaps clearing businesses, which mean they are limited in their effect to products

that are under the exclusive jurisdiction of the CFTC. As such, the proposed CME changes are limited to CME's activities as a DCO clearing futures that are not security futures and swaps that are not security-based swaps. CME notes that the policies of the CFTC with respect to administering the Commodity Exchange Act are comparable to a number of the policies underlying the Exchange Act, such as promoting market transparency for over-the-counter derivatives markets, promoting the prompt and accurate clearance of transactions and protecting investors and the public interest.

Because the proposed changes are limited in their effect to CME's futures and swaps clearing businesses, the proposed changes are properly classified as effecting a change in an existing service of CME that:

(a) Primarily affects the clearing operations of CME with respect to products that are not securities,

⁵ 15 U.S.C. 78q-1.

⁶ 15 U.S.C. 78q-1(b)(3)(F).

including futures that are not security futures, swaps that are not security-based swaps or mixed swaps; and forwards that are not security forwards; and

(b) does not significantly affect any securities clearing operations of CME or any rights or obligations of CME with respect to securities clearing or persons using such securities-clearing service.

As such, the changes are therefore consistent with the requirements of Section 17A of the Exchange Act⁷ and are properly filed under Section 19(b)(3)(A)⁸ and Rule 19b-4(f)(4)(ii)⁹ thereunder.

B. Self-Regulatory Organization's Statement on Burden on Competition

CME does not believe that the proposed rule change will have any impact, or impose any burden, on competition. The proposed changes involve expanding the listing schedule for the Urea (Granular) FOB US Gulf Coast Swaps (Clearing Only) contract listed on the CBOT designated contract market, which is available for submission for clearing via CME ClearPort. More specifically, the CME ClearPort listing schedule as of August 17, 2015 will be amended from 12 consecutive calendar months to 24 consecutive calendar months. CME has determined that the amended listing schedule is more conducive to the needs of market participants.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

CME has not solicited, and does not intend to solicit, comments regarding this proposed rule change. CME has not received any unsolicited written comments from interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Pursuant to Section 19(b)(3)(A) of the Exchange Act¹⁰ and Rule 19b-4(f)(4)(ii) thereunder,¹¹ CME has designated that this proposal constitutes a change in an existing service of CME that (a) primarily affects the clearing operations of CME with respect to products that are not securities, including futures that are not security futures, and swaps that are not security-based swaps or mixed swaps, and forwards that are not security forwards; and (b) does not

significantly affect any securities clearing operations of CME or any rights or obligations of CME with respect to securities clearing or persons using such securities-clearing service, which renders the proposed change effective upon filing.

CME believes that the proposal does not significantly affect any securities clearing operations of CME because CME recently filed a proposed rule change that clarified that CME has decided not to clear security-based swaps, except in a very limited set of circumstances.¹² The rule filing reflecting CME's decision not to clear security-based swaps removed any ambiguity concerning CME's ability or intent to perform the functions of a clearing agency with respect to security-based swaps. Therefore, this proposal will have no effect on any securities clearing operations of CME.

At any time within 60 days of the filing of the proposed change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Exchange Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:
