International Trade Administration

Safety and Security Business Development Mission to Morocco, Algeria and Egypt

AGENCY: International Trade Administration, Department of Commerce.

ACTION: Notice; extension of application deadline.

SUMMARY: The United States Department of Commerce, International Trade Administration is amending a notice published May 5, 2014, for the Safety and Security Business Development Mission to Morocco, Algeria and Egypt (March 4-12, 2015) to extend the date of the application deadline from January 15, 2015, to the new deadline of January 30, 2015.

DATES: The application deadline for the notice published May 5, 2014, at 79 FR 10205, is extended to January 30, 2015.

SUPPLEMENTARY INFORMATION:

Amendment To Revise the Application Deadline

Background

Recruitment for this Mission began in May 2014. Due to November & December 2014 holidays, it has been determined that additional time is needed to allow for additional recruitment and marketing in support of the mission. Applications will now be accepted through January 30, 2015 (and after that date if space remains and scheduling constraints permit). Interested companies that have not already submitted an application are encouraged to do so.

Amendments

For the reasons stated above, the last paragraph of the Timeframe for Recruitment and Application section is amended to allow for applications to be accepted through January 30, 2015. "Recruitment for this mission will conclude no later than January 30, 2015. The U.S. Department of Commerce will review applications and make selection decisions as quickly as possible. Applications received after January 30, 2015, will be considered only if space and scheduling constraints permit."

Civil Nuclear Trade Advisory Committee Meeting

AGENCY: ITA, DOC.

ACTION: Notice of Federal Advisory Committee meeting.

SUMMARY: This notice sets forth the schedule and proposed agenda for a meeting of the Civil Nuclear Trade Advisory Committee (CINTAC).

DATES: The meeting is scheduled for Thursday, February 19, 2015, at 9:00 a.m. Eastern Standard Time (EST).

ADDRESSES: The meeting will be held in Room 4830, U.S. Department of Commerce, Herbert Clark Hoover Building, 1401 Constitution Ave. NW., Washington, DC 20230.

FOR FURTHER INFORMATION CONTACT: Mr. Jonathan Chesebro, Office of Energy & Environmental Industries, ITA, Room 4053, 1401 Constitution Ave. NW., Washington, DC 20230. (Phone: 202-482-1297; Fax: 202-482-5665; email: jonathan.chesebro@trade.gov).

SUPPLEMENTARY INFORMATION:

Background: The CINTAC was established under the discretionary authority of the Secretary of Commerce and in accordance with the Federal Advisory Committee Act (5 U.S.C. App.), in response to an identified need for consensus advice from U.S. industry to the U.S. Government regarding the development and administration of programs to expand United States exports of civil nuclear goods and services in accordance with applicable U.S. laws and regulations, including advice on how U.S. civil nuclear goods and services export policies, programs, and activities will affect the U.S. civil nuclear industry's competitiveness and ability to participate in the international market.

Topics to be considered: The agenda for the Thursday, February 19, 2015 CINTAC meeting is as follows:

9 a.m.-4 p.m.

1. International Trade Administration's Civil Nuclear Trade Initiative Update

2. Civil Nuclear Trade Promotion Activities Discussion
3. Public comment period

The meeting will be disabled-accessible. Public seating is limited and available on a first-come, first-served basis. Members of the public wishing to attend the meeting must notify Mr. Jonathan Chesebro at the contact information below by 5 p.m. EST on Friday, February 13, 2015 in order to pre-register for clearance into the building. Please specify any requests for reasonable accommodation at least five business days in advance of the meeting. Last minute requests will be accepted, but may be impossible to fill.

A limited amount of time will be available for pertinent brief oral comments from members of the public attending the meeting. To accommodate as many speakers as possible, the time for public comments will be limited to two (2) minutes per person, with a total public comment period of 30 minutes. Individuals wishing to reserve speaking time during the meeting must contact Mr. Chesebro and submit a brief statement of the general nature of the comments and the name and address of the proposed participant by 5 p.m. EST on Friday, February 13, 2015. If the number of registrants requesting to make statements is greater than can be reasonably accommodated during the meeting, ITA may conduct a lottery to determine the speakers. Speakers are requested to bring at least 20 copies of their oral comments for distribution to the participants and public at the meeting.

Any member of the public may submit pertinent written comments concerning the CINTAC's affairs at any time before and after the meeting. Comments may be submitted to the Civil Nuclear Trade Advisory Committee, Office of Energy & Environmental Industries, Room 4053, 1401 Constitution Ave. NW., Washington, DC 20230. For consideration during the meeting, and to ensure transmission to the Committee prior to the meeting, comments must be received no later than 5 p.m. EST on February 13, 2015. Comments received after that date will be distributed to the members but may not be considered at the meeting.

Copies of CINTAC meeting minutes will be available within 90 days of the meeting.

Edward A. O'Malley,
Director, Office of Energy and Environmental Industries.

International Trade Administration

8th Annual U.S. Industry Program at the International Atomic Energy Agency (IAEA) General Conference

AGENCY: International Trade Administration (ITA), Department of Commerce (DOC).

ACTION: Notice

Mission Description

The United States Department of Commerce's (DOC) International Trade Administration (ITA), with participation from the U.S. Departments of Energy and State, is organizing the 8th Annual U.S. Industry Program at the International Atomic Energy Agency (IAEA) General Conference, to be held September 13–16, 2015, in Vienna, Austria. The IAEA General Conference is the premier global meeting of civil nuclear policymakers and typically attracts senior officials and industry representatives from all 162 Member States. The U.S. Industry Program is part of the Department of Commerce-led Civil Nuclear Trade Initiative, a U.S. Government effort to help U.S. civil nuclear companies identify and capitalize on commercial civil nuclear opportunities around the world. The purpose of the program is to help the U.S. nuclear industry promote its services and technologies to an international audience, including senior energy policymakers from current and emerging markets as well as IAEA staff.

Representatives of U.S. companies from across the U.S. civil nuclear supply chain are eligible to participate. In addition, organizations providing related services to the industry, such as universities, research institutions, and U.S. civil nuclear trade associations, are eligible for participation. The mission will help U.S. participants gain market insights, make industry contacts, solidify business strategies, and identify or advance specific projects with the goal of increasing U.S. civil nuclear exports to a wide variety of countries interested in nuclear energy.

The schedule includes: (1) Meetings with foreign delegations; (2) briefings from senior U.S. Government officials and IAEA staff on important civil nuclear topics including regulatory, technology and standards issues; liability, public acceptance, export controls, financing, infrastructure development, and R&D cooperation; and (3) networking events. Past U.S. Industry Programs have included participation by the U.S. Secretary of Energy, the Chairman of the U.S.

Nuclear Regulatory Commission (NRC) and senior U.S. Government officials from the Departments of Commerce, Energy, State, the U.S. Export-Import Bank and the National Security Council.

There are significant opportunities for U.S. businesses in the global civil nuclear energy market. With 174 nuclear plant projects planned in 30 countries over the next 8–10 years, this translates to a market demand for equipment and services totaling \$500–740 billion over the next ten years. This mission contributes to the President's National Export Initiative NEXT (<http://www.trade.gov/neinext>) and DOC's Civil Nuclear Trade Initiative (<http://export.gov/civilnuclear>), by assisting U.S. businesses in entering or expanding in international markets, and enhancing opportunities for U.S. exports.

Mission Setting

The IAEA General Conference is the premier global meeting of civil nuclear policymakers, and typically attracts over 1,200 senior officials and industry representatives from all 162 IAEA Member States. As such, it is an opportunity to highlight the breadth and depth of the U.S. civil nuclear sector to foreign energy policymakers and potential customers. The U.S. Industry Program will provide opportunities for U.S. industry representatives to meet with U.S. Government and IAEA officials and discuss key issues of interest for civil nuclear exporters. The program will also feature exclusive briefings from foreign government representatives, providing opportunities for participants to develop contacts in potential export markets. Past U.S. Industry Programs have included participation from U.S. companies and organizations from across the U.S. civil nuclear supply chain, including large reactor and small modular reactor (SMR) designers; component manufacturers; engineering, procurement, and construction firms; civil nuclear program management providers; advisory services firms; fuel cycle service providers (including uranium enrichment); National Laboratories; and industry trade associations and professional organizations.

Mission Goals

The purpose of the U.S. Industry Program is to highlight the benefits of U.S. civil nuclear technology to foreign decision makers in key export markets and to enable representatives from the U.S. public and private sector to discuss U.S. industry's role in the safe and secure expansion of civil nuclear power
