

for the calendar year pursuant to the regulations § 370.4 of this chapter. In addition, a Noncommercial Educational Webcaster that unexpectedly exceeded 80,000 total ATH on one or more channels or stations for more than one month during the immediately preceding calendar year may elect to pay the Proxy Fee and receive the reporting waiver described in paragraph (g)(1) of this section during a calendar year, if it implements measures reasonably calculated to ensure that it will not make Eligible Transmissions exceeding 80,000 total ATH during any month of that calendar year. The Proxy Fee is intended to defray the Collective's costs associated with this reporting waiver, including development of proxy usage data. The Proxy Fee shall be paid by the date specified in paragraph (c) of this section for paying the Minimum Fee for the applicable calendar year and shall be accompanied by a certification on a form provided by the Collective, signed by a duly authorized representative of the applicable educational institution, stating that the Noncommercial Educational Webcaster is eligible for the Proxy Fee option because of its past and expected future usage and, if applicable, has implemented measures to ensure that it will not make excess Eligible Transmissions in the future.

* * * * *

(3) *Census-basis reports.* If any of the following three conditions is satisfied, a Noncommercial Educational Webcaster must report pursuant to paragraph (g)(3) of this section:

- (i) The Noncommercial Educational Webcaster exceeded 159,140 total ATH for any individual channel or station for more than one calendar month in the immediately preceding calendar year;
- (ii) The Noncommercial Educational Webcaster expects to exceed 159,140 total ATH for any individual channel or station for any calendar month in the applicable calendar year; or
- (iii) The Noncommercial Educational Webcaster otherwise does not elect to be subject to paragraph (g)(1) or (2) of this section.

A Noncommercial Educational Webcaster required to report pursuant to paragraph (g)(3) of this section shall provide reports of use to the Collective quarterly on a census reporting basis in accordance with § 370.4 of this chapter, except that, notwithstanding § 370.4(d)(2), such a Noncommercial Educational Webcaster shall not be required to include ATH or actual total performances, and may in lieu thereof provide channel or station name and play frequency, during the first calendar

year it reports in accordance with paragraph (g)(3) of this section. For the avoidance of doubt, after a Noncommercial Educational Webcaster has been required to report in accordance with paragraph (g)(3) of this section for a full calendar year, it must thereafter include ATH or actual total performances in its reports of use. All reports of use under paragraph (g)(3) of this section shall be submitted to the Collective no later than the 45th day after the end of each calendar quarter.

BILLING CODE 1410-72-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R08-OAR-2015-0149; FRL-9931-73-Region 8]

Air Plan Approval; CO; Revised Format for Material Incorporated by Reference

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; administrative change.

SUMMARY: The Environmental Protection Agency (EPA) is revising the format of materials submitted by the state of Colorado that are incorporated by reference (IBR) into its State Implementation Plan (SIP). The regulations affected by this format change have all been previously submitted by Colorado and approved by the EPA.

DATES: This action is effective September 28, 2015.

ADDRESSES: The EPA has established a docket for this action under Docket Identification Number EPA-R08-OAR-2015-0149. All documents in the docket are listed on the <http://www.regulations.gov> Web site. Although listed in the index, some information may not be publicly available, *i.e.*, Confidential Business Information or other information the disclosure of which is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in the hard copy form. Publicly available docket materials are available either

electronically through <http://www.regulations.gov> or in hard copy at EPA Region 8, Office of Partnership and Regulatory Assistance, Air Program, 1595 Wynkoop Street, Denver, Colorado, 80202-1129. The EPA requests that you contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section to view the hard copy of the docket. An electronic copy of the state's SIP compilation is also available at <http://www.epa.gov/region8/air/sip.html>.

FOR FURTHER INFORMATION CONTACT:

Kathy Ayala, Air Program, U.S. Environmental Protection Agency (EPA), Region 8, Mailcode 8P-AR, 1595 Wynkoop Street, Denver, Colorado 80202-1129, (303) 312-6142, ayala.kathy@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Change in IBR Format

This format revision will affect the "Identification of plan" section of 40 CFR part 52, as well as the format of the SIP materials that will be available for public inspection at the National Archives and Records Administration (NARA); the Air and Radiation Docket and Information Center located at EPA Headquarters in Washington, DC, and the EPA Region 8 Office.

A. Description of a SIP

Each state has a SIP containing the control measures and strategies used to attain and maintain the national ambient air quality standards (NAAQS) and achieve certain other Clean Air Act (Act) requirements (*e.g.*, visibility requirements, prevention of significant deterioration). The SIP is extensive, containing such elements as air pollution control regulations, emission inventories, monitoring network descriptions, attainment demonstrations, and enforcement mechanisms.

B. How EPA Enforces the SIP

Each SIP revision submitted by Colorado must be adopted at the state level after undergoing reasonable notice and public hearing. SIPs submitted to EPA to attain or maintain the NAAQS must include enforceable emission limitations and other control measures, schedules and timetables for compliance.

EPA evaluates submitted SIPs to determine if they meet the Act's requirements. If a SIP meets the Act's requirements, EPA will approve the SIP. EPA's notice of approval is published in the **Federal Register** and the approval is then codified at 40 CFR part 52. Once EPA approves a SIP, it is enforceable by

EPA and citizens in federal district court.

We do not reproduce in 40 CFR part 52 the full text of the Colorado regulations that we have approved. Instead, we incorporate them by reference or IBR. We approve a given state regulation with a specific effective date and then refer the public to the location(s) of the full text version of the state regulation(s) should they want to know which measures are contained in a given SIP (see I.F., *Where You Can Find a Copy of the SIP Compilation*).

C. How the State and EPA Update the SIP

The SIP is a dynamic document which the state can revise as necessary to address the unique air pollution problems in the state. Therefore, EPA from time to time must take action on SIP revisions containing new and/or revised regulations.

On May 22, 1997 (62 FR 27968), EPA announced revised procedures for IBR of federally approved SIPs. The procedures announced included: (1) A new process for IBR of material submitted by states into compilations and a process for updating those compilations on roughly an annual basis; (2) a revised mechanism for announcing EPA approval of revisions to an applicable SIP and updating both the compilations and the CFR; and, (3) a revised format for the "Identification of plan" sections for each applicable subpart to reflect these revised IBR procedures.

D. How EPA Compiles the SIP

We have organized into a compilation the federally-approved regulations, source-specific requirements and nonregulatory provisions we have approved into the SIP. These compilations may be found at <http://www.epa.gov/region8/air/sip.html>. In addition, we maintain hard copies of the compilation which are updated periodically.

E. How EPA Organizes the SIP Compilation

Each compilation contains three parts. Part one contains the state regulations that have been approved, part two contains the source-specific requirements that have been approved as part of the SIP (if any), and part three contains non-regulatory provisions that have been approved. Each compilation contains a table of identifying information for each regulation, each source-specific requirement, and each nonregulatory provision. The state effective dates in the tables indicate the date of the most recent revision to a

particular approved regulation. The table of identifying information in the compilation corresponds to the table of contents published in 40 CFR part 52 for the state. The EPA Regional Offices have the primary responsibility for ensuring accuracy and updating the compilations.

F. Where You Can Find a Copy of the SIP Compilation

EPA Region 8 developed and will maintain the compilation for Colorado. An electronic copy of the compilation is contained at <http://www.epa.gov/region8/air/sip.html>. SIP Materials which are incorporated by reference into 40 CFR part 52 are also available for inspection at the following locations: Air and Radiation Docket and Information Center, U.S. Environmental Protection Agency, EPA West Building, Room 3334, 1301 Constitution Ave. NW., Washington, DC 20460 or the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, call (202) 741-6030, or go to: <http://www.archives.gov/federal-register/cfr/ibr-locations.html>.

G. The Format of the New Identification of Plan Section

In order to better serve the public, EPA has revised the organization of the "Identification of plan" section in 40 CFR part 52 and included additional information to clarify the elements of the SIP.

The revised Identification of plan section for Colorado contains five subsections:

1. Purpose and scope (see 40 CFR 52.320(a));
2. Incorporation by reference (see 40 CFR 52.320(b));
3. EPA-approved regulations (see 40 CFR 52.320(c));
4. EPA-approved source-specific requirements (see 40 CFR 52.320(d)); and,
5. EPA-approved nonregulatory provisions such as transportation control measures, statutory provisions, control strategies, monitoring networks, etc. (see 40 CFR 52.320(e)).

H. When a SIP Revision Becomes Federally Enforceable

All revisions to the applicable SIP are federally enforceable as of the effective date of EPA's approval of the respective revision. In general, SIP revisions become effective 30 to 60 days after publication of EPA's SIP approval action in the **Federal Register**. In specific cases, a SIP revision action may become effective less than 30 days or greater than 60 days after the **Federal**

Register publication date. In order to determine the effective date of EPA's approval for a specific Colorado SIP provision that is listed in 40 CFR 52.320(c), (d), or (e), consult the volume and page of the **Federal Register** cited in 40 CFR 52.320 for that particular provision.

I. The Historical Record of SIP Revision Approvals

To facilitate enforcement of previously approved SIP provisions and to provide a smooth transition to the new SIP processing system, we are retaining the original Identification of plan section (40 CFR 52.354). This section previously appeared at 40 CFR 52.320. After an initial two-year period, we will review our experience with the new table format and will decide whether to retain the original identification of plan section (40 CFR 52.354) for some further period.

II. What EPA is doing in this action?

This action constitutes a "housekeeping" exercise to reformat the codification of the EPA-approved Colorado SIP.

III. Good Cause Exemption

EPA has determined that this action falls under the "good cause" exemption in section 553(b)(3)(B) of the Administrative Procedure Act (APA) which, upon a finding of "good cause" authorizes agencies to dispense with public participation, and section 553(d)(3), which allows an agency to make a rule effective immediately (thereby avoiding the 30-day delayed effective date otherwise provided for in the APA). This action simply reformats the codification of provisions which are already in effect as a matter of law.

Under section 553 of the APA, an agency may find good cause where procedures are "impractical, unnecessary, or contrary to the public interest." Public comment is "unnecessary" and "contrary to the public interest" since the codification only reflects existing law. Likewise, there is no purpose served by delaying the effective date of this action.

In this rule, EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, EPA is finalizing the incorporation by reference of the Colorado regulations described in the amendments to 40 CFR part 52 set forth below. EPA has made, and will continue to make, these documents generally available electronically through www.regulations.gov and/or in hard copy at the appropriate EPA office (see

the **ADDRESSES** section of this preamble for more information).

IV. Statutory and Executive Order Reviews

A. General Requirements

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a “significant regulatory action” and is therefore not subject to review by the Office of Management and Budget. This rule is not subject to Executive Order 13211, “Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use” (66 FR 28355, May 22, 2001) because it is not a significant regulatory action under Executive Order 12866. Because the agency has made a “good cause” finding that this action is not subject to notice-and-comment requirements under the Administrative Procedure Act or any other statute as indicated in the **SUPPLEMENTARY INFORMATION** section, it is not subject to the regulatory flexibility provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), or to sections 202 and 205 of the Unfunded Mandates Reform Act of 1995 (UMRA) (Pub. L. 104–4). In addition, this action does not significantly or uniquely affect small governments or impose a significant intergovernmental mandate, as described in sections 203 and 204 of UMRA. This rule also does not have a substantial direct effect on one or more Indian tribes, on the relationship between the federal government and Indian tribes, or on the distribution of power and responsibilities between the federal government and Indian tribes, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), nor will it have substantial direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999). This rule also is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because it is not economically significant. This rule does not involve technical standards; thus the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. The rule also does not involve special consideration of environmental justice related issues as required by Executive Order 12898 (59 FR 7629, February 16, 1994). This rule does not impose an information collection burden under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). EPA’s compliance with these statutes and Executive Orders for the

underlying rules are discussed in previous actions taken on the state’s rules.

B. Submission to Congress and the Comptroller General

The Congressional Review Act (5 U.S.C. 801 *et seq.*), as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. Section 808 allows the issuing agency to make a rule effective sooner than otherwise provided by the CRA if the agency makes a good cause finding that notice and public procedure is impracticable, unnecessary or contrary to the public interest. This action simply codifies provisions which are already in effect as a matter of law in federal and approved state programs. 5 U.S.C. 808(2). As stated previously, EPA has made such a good cause finding and established an effective date of September 28, 2015. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This change to the identification of plan for Colorado is not a “major rule” as defined by 5 U.S.C. 804(2).

C. Petitions for Judicial Review

EPA has also determined that the provisions of section 307(b)(1) of the Clean Air Act pertaining to petitions for judicial review are not applicable to this action. Prior EPA rulemaking actions for each individual component of the Colorado SIP compilation had previously afforded interested parties the opportunity to file a petition for judicial review in the United States Court of Appeals for the appropriate circuit within 60 days of such rulemaking action. Thus, EPA sees no need in this action to reopen the 60-day period for filing such petitions for judicial review for this “Identification of plan” reorganization action for Colorado.

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Carbon monoxide, Incorporation by reference, Intergovernmental relations, Lead, Nitrogen dioxide, Ozone, Particulate matter, Reporting and recordkeeping requirements, Sulfur oxides, Volatile organic compounds.

Dated: July 10, 2015.

Shaun L. McGrath,

Regional Administrator, Region 8.

40 CFR part 52 is amended to read as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart G—Colorado

§ 52.320 [Redesignated as § 52.354]

■ 2. Section 52.320 is redesignated as § 52.354, and in newly redesignated § 52.354, revise the section heading and paragraph (a) to read as follows:

§ 52.354 Original identification of plan.

(a) This section identifies the original “Air Implementation Plan for the State of Colorado” and all revisions submitted by Colorado that were federally approved prior to June 1, 2015.

* * * * *

■ 3. Add § 52.320 to read as follows:

§ 52.320 Identification of plan.

(a) *Purpose and scope.* This section sets forth the applicable State Implementation Plan for Colorado under section 110 of the Clean Air Act, 42 U.S.C. 7410 and 40 CFR part 51 to meet national ambient air quality standards or other requirements under the Clean Air Act.

(b) *Incorporation by reference.* (1) Material listed in paragraphs (c) and (d) of this section with an EPA approval date prior to June 1, 2015, was approved for incorporation by reference by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Material is incorporated as submitted by the state to EPA, and notice of any change in the material will be published in the **Federal Register**. Entries for paragraphs (c) and (d) of this section with EPA approval dates after June 1, 2015, will be incorporated by reference in the next update to the SIP compilation.

(2) EPA Region 8 certifies that the rules/regulations provided by EPA in the SIP compilation at the addresses in paragraph (b)(3) of this section are an exact duplicate of the officially promulgated state rules/regulations which have been approved as part of the State Implementation Plan as of June 1, 2015.

(3) Copies of the materials incorporated by reference may be inspected at the Environmental

Protection Agency, Region 8, 1595 Wynkoop Street, Denver, Colorado, 80202–1129; Air and Radiation Docket and Information Center, U.S. Environmental Protection Agency, West Building, 1301 Constitution Ave. NW., Washington, DC 20460; and, the National Archives and Records

Administration (NARA). For information on the availability of materials from the docket in the EPA Headquarters Library, please call the Office of Air and Radiation (OAR) at (202) 566–1742. For information on the availability of this material at NARA, call (202) 741–6030, or go to [http://](http://www.archives.gov/federal-register/cfr/ibr-locations.html)

www.archives.gov/federal-register/cfr/ibr-locations.html. Copies of the Colorado regulations we have approved are also available at <http://www.epa.gov/region8/air/sip.html>.

(c) EPA-approved regulations.

BILLING CODE 6560-50-P

**ENVIRONMENTAL PROTECTION
AGENCY****40 CFR Part 52****[EPA-R10-OAR-2015-0483; FRL-9934-61-
Region 10]****Approval and Promulgation of
Implementation Plans; Washington:
Update to the Spokane Regional Clean
Air Agency Solid Fuel Burning Device
Standards****AGENCY:** Environmental Protection
Agency.**ACTION:** Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving a State Implementation Plan (SIP) revision submitted by the Washington State Department of Ecology (Ecology) on July 10, 2015. The SIP submission contains revisions to the Spokane Regional Clean Air Agency (SRCAA) solid fuel burning device regulations to control particulate matter from residential wood combustion. The updated regulations reflect the State of Washington's statutory changes setting fine particulate matter trigger levels for impaired air quality burn bans. The submission also contains updates to the regulations to improve the clarity of the language. We are approving these changes because they meet the requirements of the Clean Air Act and strengthen the Washington SIP.

DATES: This final rule is effective October 28, 2015.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA-R10-OAR-2015-0483. All documents in the docket are listed on the www.regulations.gov Web site. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information (CBI) or other information the disclosure of which is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through www.regulations.gov or in hard copy at the Air Programs Unit, Office of Air, Waste and Toxics, EPA Region 10, 1200 Sixth Avenue, Seattle, WA, 98101. The EPA requests that if at all possible, you contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section to view the hard copy of the docket. You may view the hard copy of the docket Monday through Friday, 8:00 a.m. to 4:00 p.m., excluding Federal holidays.

FOR FURTHER INFORMATION CONTACT: For information please contact Jeff Hunt at (206) 553-0256, hunt.jeff@epa.gov, or by using the above EPA, Region 10 address.

SUPPLEMENTARY INFORMATION:**Table of Contents**

- I. Background Information
- II. Final Action
- III. Incorporation by Reference
- IV. Statutory and Executive Orders Review

I. Background Information

On August 10, 2015, the EPA proposed to approve revisions to the SRCAA solid fuel burning device

regulations (80 FR 47880). An explanation of the CAA requirements, a detailed analysis of the submittal, and the EPA's reasons for approval were provided in the notice of proposed rulemaking, and will not be restated here. The public comment period for this proposed rule ended on September 9, 2015. The EPA received no comments on the proposal.

II. Final Action

The EPA is approving Washington's SIP revision submitted on July 10, 2015. Specifically, the EPA is approving and incorporating by reference into the SIP the SRCAA regulations shown in Table 1. We note that Ecology and SRCAA submitted Regulation I, Section 8.11, *Regulatory Actions and Penalties* to demonstrate adequate enforcement authority to implement the program. Regulations describing agency enforcement authority are not generally incorporated by reference into the SIP to avoid potential conflict with the EPA's independent authorities. Therefore, we are approving Section 8.11 as providing adequate enforcement authority, but we are not incorporating this section by reference into the SIP, codified in 40 CFR 52.2470(c). Similarly, SRCAA Section 8.04 incorporates by reference the statewide Ecology solid fuel burning device regulations contained in WAC 173-433. To the extent that SRCAA's regulations reference WAC 173-433-130, 173-433-170, and 173-433-200 which contain nuisance, fee, and enforcement provisions, Washington did not submit these provisions for approval, consistent with the EPA's May 9, 2014 final action on the statewide Ecology regulations (79 FR 26628).

TABLE 1—APPROVED AND INCORPORATED BY REFERENCE SRCAA REGULATIONS

Agency	Citation (section)	Title	State effective date	Submitted	Explanation
Regulation I—Article VIII—Solid Fuel Burning Device Standards					
SRCAA	8.01	Purpose	09/02/14	07/10/15	Except SRCAA's incorporation by reference of WAC 173-433-130, 173-433-170, and 173-433-200.
SRCAA	8.02	Applicability	09/02/14	07/10/15	
SRCAA	8.03	Definitions	09/02/14	07/10/15	
SRCAA	8.04	Emission Performance Standards	09/02/14	07/10/15	
SRCAA	8.05	Opacity Standards	09/02/14	07/10/15	
SRCAA	8.06	Prohibited Fuel Types	09/02/14	07/10/15	
SRCAA	8.07	Curtailment (Burn Ban)	09/02/14	07/10/15	
SRCAA	8.08	Exemptions	09/02/14	07/10/15	
SRCAA	8.09	Procedure to Geographically Limit Solid Fuel Burning Devices.	09/02/14	07/10/15	
SRCAA	8.10	Restrictions on Installation and Sales of Solid Fuel Burning Devices.	09/02/14	07/10/15
