The general policy or comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at <http://www.regulations.gov> as they are received without change, including personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: William A. DeCicco, Clerk of the Court, telephone (202) 761-1448.

Rule 37(a):

Rule 37(a) currently reads:

(a) Printing. Except for records of trial and as otherwise provided by Rules 24(f) and 27(a)(4) or any order of the Court regarding the electronic filing of pleadings, all pleadings or other papers relative to a case shall be typewritten and double-spaced, printed on one side only on white unglazed paper, 8.5 by 11 inches in size, securely fastened in the top left corner. All printed matter must appear in monospaced typeface, e.g., Courier or Courier New, using 12-point type with no more than ten and ½ characters per inch. Margins must be at least 1 inch on all four sides. Page numbers may be placed in the margin but no text may appear in the margin.

The proposed changes to Rule 37(a) would read:

(a) Printing. Except for records of trial and as otherwise provided by Rule 24(f) or any order of the Court regarding the electronic filing of pleadings, all pleadings or other papers relative to a case shall be typewritten and double-spaced, printed on one side only on white unglazed paper, 8.5 by 11 inches in size, securely fastened in the top left corner. All printed matter must appear in proportional type, e.g., Times New Roman. The use of 14-point type is required. Margins must be at least 1 inch on all four sides. Page numbers may be placed in the margin but no text may appear in the margin.

Comment: The reference to Rule 27(a)(4) is omitted because that Rule was rescinded in 2012. Times New Roman is the font that is commonly used in appellate courts and it would be the default under the new Rule. The proposal to change from monospaced typeface to proportional typeface with 14-point type tracks Federal Rule of Appellate Procedure 32(a)(5) which requires the use of 14-point type or larger when proportional type is used.

Federal Energy Regulatory Commission

[Docket No. CP15-557-000]

Total Peaking Services, LLC; Notice of Application

Take notice that on September 23, 2015, Total Peaking Services, LLC 775 Oronoque Road, Milford, Connecticut 06460, filed in Docket No. CP15-557-000, an application pursuant to section 7(c) of the Natural Gas Act and Part 157 of the Commission’s regulations, for a certificate of public convenience and necessity to upgrade its existing liquefied natural gas facility (Milford Facility) in Milford, Connecticut. Specifically, Total Peaking seeks to increase the Plant’s vaporization send out capacity from 90 million cubic feet per day (MMcf/d) to 105 MMcf/d, and will construct and install an additional boil-off gas compressor unit. Also, Total Peaking intends to perform certain additional electrical upgrades, all as more fully set forth in the application, which is on file with the Commission and open to public inspection. The filing may also be viewed on the web at <http://www.ferc.gov> using the “eLibrary” link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (866) 208-3676 or TTY, (202) 502-8659.

Any questions regarding this application should be directed to Joseph Fagan, 1100 New York Ave. NW., Suite 300, Washington, DC or phone: (202) 218-3901.

Pursuant to section 157.9 of the Commission’s rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission’s public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff’s issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the

EA in the Commission’s public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff’s FEIS or EA.

There are two ways to become involved in the Commission’s review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission’s Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 7 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission’s rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentators will be placed on the Commission’s environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission’s environmental review process. Environmental commentators will not be required to serve copies of filed documents on all other parties.
