

example, without additional information, there is no apparent reason that a corporate affiliate not within the control of an applicant or an applicant's direct owner should be presumed to share information with the applicant. Nevertheless, the corporate affiliate, much like a third party, must take care not to become a conduit for a prohibited communication.

48. Compliance Education. All eligible broadcast television licensees are subject to the reverse auction rule and all forward auction applicants are subject to the forward auction rule. Accordingly, all these parties should become familiar with the relevant rule in advance of the auction application process. The Bureau reiterates that the rules apply only with respect to communications regarding bids and bidding strategies of incentive auction applicants. The rules should not impose any significant burden on full power and Class A television broadcasters that neither participate in the auction nor have information regarding bids or bidding strategies of any applicants. The main burden of the reverse auction rule will fall on broadcasters that apply to participate in the auction, or that may possess information regarding the bids and bidding strategies of others that do. These broadcasters and forward auction applicants also should become familiar with the Commission precedent regarding application of the prohibition of communications regarding bids and bidding strategies. These precedents apply slightly different rules in the context of past Commission auctions, and the details of the rules applied have changed over time. Nevertheless, the purpose underlying the prohibition reflected in all versions of the rule has remained consistent, making the precedents a potentially helpful resource for parties with respect to particular circumstances.

49. Parties also should educate employees and agents regarding compliance, particularly those employees and agents with access to bids and bidding strategy information. Limiting such access to persons with a definite need will both strengthen and simplify compliance.
