SUPPLEMENTARY INFORMATION:

I. Background

The Department of the Interior (DOI) Interior Business Center (IBC) maintains the “Oracle Federal Financials (OFF), DOI–91” system of records. The IBC is a service provider that performs services

for other Federal government agencies, both inside and outside the DOI. The IBC’s service offerings include providing and maintaining various types of business management systems for its clients, including human resources and financial management applications. The Oracle Federal Financial (OFF) system includes the OFF and OFF–VE applications, which are components of the Oracle eBusiness Suite. The OFF system provides IBC clients with a web-based application that contains customizable financial management modules that combine to provide a comprehensive financial software package to support budgeting, purchasing, Federal procurement, accounts payable, fixed assets, general ledger, inventory, accounts receivable, reimbursement, reporting, and collection functions.

The IBC hosts the OFF system and is responsible for system administration functions. Each client agency retains control over its data in the system and has one or more designated managers who are responsible for maintaining client agency data in the OFF system. While DOI records generated and maintained in OFF are covered under this system of records notice, each client agency that maintains records within the system has published system notices that cover these financial management activities. Therefore, individuals seeking access to or amendment of their records under the control of a client agency should follow the access procedures outlined in the applicable client agency system of records notice or send a written inquiry to that agency Chief Privacy Officer.

Additionally, the records maintained within the OFF system may also be covered by existing government-wide system of records notices, including GSA/GOVT–3, Travel Charge Card Program; GSA/GOVT–4, Contracted Travel Services Program; and GSA/GOVT–6, GSA SmartPay Purchase Charge Card Program, and may be subject to handling and disclosure requirements under published routine uses pursuant to the government-wide notices as applicable. Client agencies are responsible for ensuring the handling, use, and sharing of their records in OFF is in compliance with the Privacy Act of 1974, including the provisions regarding notice, access, collection, use, retention, and disclosure of records from this system. The Oracle Federal Financials (OFF), DOI–91 system of records notice was last published in the **Federal Register** on September 10, 2013, 78 FR 55284.

The amendments to the system will be effective as proposed at the end of
