In accordance with the Act, the advisory group provides "advice, information, and recommendations" to the Administrator and the Director—

(1) On the implementation of this title [the Act] and the amendments made by this title;

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2015-0114]

Petition for Waiver of Compliance

In accordance with part 211 of Title 49 of Code of Federal Regulations (CFR), this document provides the public notice that by a document dated September 29, 2015, the Graham-White Company (Graham-White) has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR 231.27. FRA assigned the petition Docket Number FRA-2015-0114.

Graham-White manufactures electric locomotive parking brakes. The Graham White design provides transmission of torque from the hand wheel into the input shaft of the brake through a key that engages the hand wheel hub and the input shaft. Title 49 CFR 231.27(a)(2) requires the hand brake wheel be affixed to the input shaft using a square taper fit not less than seven-eighths of an inch square. A Graham-White technical analysis report demonstrates that the company's design provides the same degree of safety or a greater degree of safety than that specified in 49 CFR 231.27. Graham-White is requesting relief from the hand brake shaft square taper fit regulation, as stipulated in 49 CFR 231 Plate A, to allow the key and shaft design currently in service on Graham-White electric parking hand brakes.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE., W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.
