SUPPLEMENTARY INFORMATION:

I. Background

FDA is announcing the availability of a draft guidance for industry and review staff entitled “Best Practices for Communication Between IND Sponsors and FDA During Drug Development.” As part of the Prescription Drug User Fee Amendments of 2012, described in “Reauthorization Performance Goals

and Procedures; Fiscal Years 2013 through 2017,” the Center for Drug Evaluation and Research (CDER) and the Center for Biologics Evaluation and Research (CBER) agreed to publish a joint guidance for industry and review staff on best practices for communication between IND sponsors and FDA during drug development.

To establish the best practices described in this guidance, CDER and CBER gathered the experiences of review staff and incorporated input from interested parties who responded to a notice published in the **Federal Register** (79 FR 64397; October 29, 2014) or who provided input directly to CDER’s Enhanced Communication Team.

This guidance describes FDA’s philosophy regarding timely interactive communication with IND sponsors as a core activity; the scope of appropriate interactions between the review team and the sponsor; the types of advice appropriate for sponsors to seek from FDA in pursuing their drug development program; the general expectations for the timing of FDA response to IND sponsor inquiries; best practices and communication methods to facilitate interactions between the FDA review team and the IND sponsor during drug development; and expectations on appropriate methods and frequency of such communications. This guidance does not apply to communications or inquiries from industry trade organizations, consumer or patient advocacy organizations, other government agencies, or other stakeholders not pursuing a development program under an IND.

This draft guidance is being issued consistent with FDA’s good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, will represent the current thinking of FDA on best practices for communication between IND sponsors and FDA during drug development. It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations.

II. The Paperwork Reduction Act of 1995

This guidance refers to previously approved collections of information that are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520). The collections of information in 21 CFR parts 312 and 314 have been approved under OMB control numbers 0910–0014 and 0910–0001, respectively.

III. Electronic Access

Persons with access to the Internet may obtain the draft guidance at <http://www.fda.gov/Drugs/GuidanceComplianceRegulatoryInformation/Guidances/default.htm>, <http://www.fda.gov/BiologicsBloodVaccines/GuidanceComplianceRegulatoryInformation/default.htm>, or <http://www.regulations.gov>.
