

progress in accordance with the original or revised treatment plan.

- Section 482.61(e), requiring that each patient who has been discharged has a documented discharge summary.

- Section 482.62(c), requiring that, if medical and surgical diagnostic and treatment services are not available within the institution, the institution have an agreement with an outside source of these services to ensure that they are immediately available or a satisfactory agreement must be established for transferring patients to a general hospital that participates in the Medicare program.

- Section 482.62(g)(1), requiring that therapeutic activities be appropriate to the needs and interests of patients and be directed toward restoring and maintaining optimal levels of physical and psychosocial functioning.

In addition, we determined that the Joint Commission is in the process of, or has completed, revising its accreditation survey processes in order to ensure that they meet the following regulatory requirements:

- Section 488.4(a)(3), regarding the sample sizes required for medical record reviews and the minimum number of medical records to be reviewed during the survey process.

- Section 488.8(a)(2)(v), requiring that complaint data submitted to CMS be accurate.

- Section 488.8(a)(2)(ii), requiring that a process be in place to conduct routine second level survey documentation review to assure that deficiency citations are made at the appropriate level when no “flags” have been placed on the survey report through the automated process of the electronic scoring system or the surveyor; that surveyors are adequately equipped and trained to appropriately identify circumstances posing an immediate threat to life and safety; that medical records and credentialing records are sampled appropriately, based on services provided and types of staff employed; and that medical records and credentialing records are reviewed thoroughly, in a uniform and complete manner by surveyors.

- Section 488.9, requiring the Joint Commission to consistently provide CMS access to observe its entire survey process, including surveyors’ use of resources provided outside of the accreditation standards manual (for example, discussions with its Standards Interpretation Group, as outlined in the application).

- Section 488.26(b), regarding surveyors’ abilities to—

—Accurately and completely document instances of non-compliance

at the appropriate level of citation [condition versus standard level citations];

—Ensure that all instances of observed non-compliance are documented in the survey report; and,

—Ensure that surveyors do not minimize the importance of compliance with regulations.

B. Term of Approval

Based on our review and observations described in section III of this final notice, we approve the Joint Commission as a national accrediting organization for psychiatric hospitals that request participation in the Medicare program, effective February 25, 2015 through February 25, 2019.

To verify the Joint Commission’s continued compliance with the provisions of this final notice, CMS will conduct a follow-up corporate on-site visit and survey observation within 18 months of the publication date of this notice.

V. Collection of Information Requirements

This document does not impose information collection requirements, that is, reporting, recordkeeping or third-party disclosure requirements. Consequently, there is no need for review by the Office of Management and Budget under the authority of the Paperwork Reduction Act of 1995.

Dated: February 13, 2015.
