The goal of the Unmanaged Forage Omnibus Amendment is to prohibit the development of new and expansion of existing directed commercial fisheries on unmanaged forage species in Mid-Atlantic Federal waters until the Council has had an adequate opportunity to both assess the scientific information relating to any new or expanded directed fisheries and consider potential impacts to existing fisheries, fishing communities, and the marine ecosystem. This action is needed to protect the structure and function of marine ecosystems in the Mid-Atlantic and to advance an ecosystem approach to fisheries management in the Mid-Atlantic. In this context, "unmanaged"

The Council has proposed a range of management alternatives to meet the goal of the amendment. The Council is seeking public comment on these alternatives. The WRAP is being developed to increase the production, delivery, and use of climate-related information and will identify priority needs and specific actions to implement the NOAA Fisheries Climate Science Strategy in the region over the next five years. Based on the webinar discussion, the EWG may submit a written report with its comments for the Pacific Council's June 23-28, 2016 meeting in Tacoma, WA. The EWG will also discuss progress on completing the Coordinated Ecosystem Indicator Review Initiative and plan future activities. This initiative is an opportunity for the larger Pacific Council family to discuss the Annual State of the California Current Ecosystem Report's indicator categories, what indicators should be part of the annual report, and how they interface with Council-managed fisheries to better support the Council's ecosystem-based management policies.

Although nonemergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of
