[Docket No. FR-5945-N-01]

Housing Trust Fund Federal Register Allocation Notice

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD. **ACTION:** Notice of Fiscal Year 2016 Funding Awards.

SUMMARY: The Housing and Economic Recovery Act of 2008 (HERA) established the Housing Trust Fund (HTF) to be administered by HUD. Pursuant to the Federal Housing Enterprises Financial Security and Soundness Act of 1992 (the Act), as amended by HERA, Division A, eligible HTF grantees are the 50 states, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, Guam, the Commonwealth of Northern Mariana Islands, and the United States Virgin Islands. In accordance with Section 1338 (c)(4)(A) of the Act, this notice announces the formula allocation amount for each eligible HTF grantee.

FOR FURTHER INFORMATION CONTACT: Virginia Sardone, Director, Office of Affordable Housing Programs, Room 7164, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, DC 20410–7000; telephone (202) 708–2684. (This is not a toll-free number.) A telecommunications device for hearing- and speech-impaired persons (TTY) is available at 800–877– 8339 (Federal Information Relay Service).

SUPPLEMENTARY INFORMATION: Section 1131 of HERA Division A amended the Act to add a new section 1337 entitled "Affordable Housing Allocations" and a new section 1338 entitled "Housing Trust Fund." HUD's implementing regulations are codified at 24 CFR part 93.

Congress authorized the HTF with the stated purpose of: (1) Increasing and preserving the supply of rental housing for extremely low-income families with incomes between 0 and 30 percent of area median income and very lowincome families with incomes between 30 and 50 percent of area median income, including homeless families, and (2) increasing homeownership for extremely low-income and very lowincome families.

Section 1337 of the Act provides for the HTF (and other programs) to be funded with an affordable housing set aside by Fannie Mae and Freddie Mac. The total set-aside amount is equal to 4.2 basis points (.042 percent) of Fannie Mae and Freddie Mac's new mortgage purchases, a portion of which is for the HTF.

Section 1338 of the Act directs HUD to establish, through regulation, the formula for distribution of amounts made available for the HTF. The statute specifies the factors to be used for the formula and priority for certain factors. The factors and methodology HUD uses to allocate HTF funds among eligible grantees are established in the HTF regulation. The funding announced for Fiscal Year 2016 through this notice is \$173,591,160. Appendix A to this notice provides the names and the amounts of the awards.

Dated: April 22, 2016.

Clifford Taffet,

General Deputy Assistant Secretary for Community Planning and Development.

Endangered and Threatened Wildlife and Plants; Draft Recovery Plan for Winkler Cactus and San Rafael Cactus

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of document availability for review and comment.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the availability of a draft recovery plan for Winkler cactus (*Pediocactus winkleri*) and San Rafael cactus (*Pediocactus despainii*). Winkler cactus is federally listed as threatened, and San Rafael cactus is federally listed as endangered under the Endangered Species Act of 1973, as amended (ESA). We are soliciting review and comment from the public on this draft plan.

DATES: Comments on the draft recovery plan must be received on or before July 5, 2016.

ADDRESSES: Copies of the draft recovery plan are available by request from the Utah Ecological Services Field Office, U.S. Fish and Wildlife Service, 2369 West Orton Circle, Suite 50, West Valley City, UT 84119; telephone 801–975– 3330. Submit comments on the draft recovery plan to the Field Supervisor at this same address. Comments may also be submitted at: *utahfieldoffice_esa@ fws.gov.*

An electronic copy of the draft recovery plan is available at: *http:// www.fws.gov/endangered/species/ recovery-plans.html.*

FOR FURTHER INFORMATION CONTACT: Larry Crist, Field Supervisor, Utah Ecological Services Field Office, at the above address, or telephone 801–975– 3330.

SUPPLEMENTARY INFORMATION:

Background

Restoring an endangered or threatened animal or plant to the point where it is again a secure, selfsustaining member of its ecosystem is a primary goal of the Service's endangered species program. To help guide recovery efforts, we prepare recovery plans to promote the conservation of the species. Recovery plans describe site-specific actions necessary for the conservation of the species; establish objective, measurable criteria that, when met, would result in a determination that the species no longer needs the protection of the ESA (16 U.S.C. 1531 *et seq.*); and provide estimates of the time and cost for implementing the needed recovery measures.

The ESA requires recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Section 4(f) of the ESA, as amended in 1988, requires that public notice and opportunity for public review and comment be provided during recovery plan development. On September 27, 1995, we published a document in the Federal Register (60 FR 49855) that made available a draft recovery plan for Winkler cactus and San Rafael cactus. That recovery plan was never finalized and is now out of date. At this time, we are making available a more comprehensive draft recovery plan for public review and comment. We will consider all information we receive during a public comment period when preparing the recovery plan for approval. The Service and other Federal agencies also will take these comments into consideration in the course of implementing an approved recovery plan.

It is our policy to request peer review of recovery plans. We will summarize and respond to the issues raised by the public and peer reviewers in an appendix to the approved recovery plan.

Species Information

Winkler Cactus

Winkler cactus is a small, peach- to pink-flowered cactus that often retracts entirely into the ground during the winter and dry seasons. It is endemic to Wayne County and southeast Sevier County of south-central Utah and is generally found at elevations of 1,500– 2,130 meters (m) (4,900–7,000 feet (ft)).

Winkler cactus was listed as a threatened species under the ESA, effective September 21, 1998 (63 FR 44587; August 20, 1998). Factors of concern affecting the species include illegal collection, habitat disturbances (mining, recreation, off-highway vehicle (OHV) use, livestock grazing, road and utility corridor development, general construction, and livestock grazing), invasive plant species, small mammal and insect predation, native ungulate disturbance, inadequacy of existing regulatory mechanisms, and climate change.

San Rafael Cactus

San Rafael cactus is a small, yellowto peach-flowered cactus that often retracts entirely into the ground during the winter and dry seasons. It is endemic to Emery County of central Utah and most commonly occurs on sites with a south exposure at elevations of 1,450–2,080 m (4,760–6,820 ft).

San Rafael cactus was listed as an endangered species under the ESA, effective October 16, 1987 (52 FR 34914; September 16, 1987). Factors of concern affecting the species include illegal collection, habitat disturbances (mining, recreation, off-highway vehicle (OHV) use, livestock grazing, road and utility corridor development, general construction, and livestock grazing), invasive plant species, small mammal and insect predation, native ungulate disturbance, inadequacy of existing regulatory mechanisms, wild horse disturbance, paleontological exploration, and climate change.

Recovery Strategies

Our recovery strategies for Winkler cactus and San Rafael cactus are based on the assumption that if specific criteria are met for the existing populations, the species can be recovered. Broadly, these criteria require that the population trends for both species be stable or improving over the long term, the available habitat base for each population be adequate for long-term health and sustainability, the populations and habitats are secure from decline, and long-term management plans for the populations and their habitats are in place that address those threats.

Request for Public Comments

The Service solicits public comments on the draft recovery plan. All comments we receive by the date specified in **DATES** will be considered prior to approval of the plan. Written comments and materials regarding the plan should be addressed to the Field Supervisor (see **ADDRESSES**). Comments may also be submitted at: *utahfieldoffice_esa@fws.gov*. Comments and materials received will be available,
