**SUPPLEMENTARY INFORMATION:** The  
Department will submit the proposed  
information collection to OMB for  
review, as required by the Paperwork  
Reduction Act of 1995 (44 U.S.C.  
chapter 35, as amended). This notice is  
soliciting comments from members of  
the public and affected agencies  
concerning the proposed collection of  
information to: (1) Evaluate whether the  
proposed collection of information is  
necessary for the proper performance of  
the functions of the agency, including if  
the information will have practical  
utility; (2) Evaluate the accuracy of the  
agency's estimate of the burden of  
proposed collection of information; (3)  
Enhance the quality, utility, and clarity  
of the information to be collected; and  
(4) Minimize the burden of the  
collection of information on those who  
are to respond, including through the  
use of appropriate automated collection  
techniques or other forms of information  
technology, *e.g.*, permitting electronic  
submission of responses.

This notice also lists the following  
information:

*Title of Proposal:* Family Self-  
Sufficiency (FSS) Program  
Demonstration.

*Description of the need for  
information and proposed use:* The  
Department is conducting this study  
under contract with MDRC and its  
subcontractors (Branch Associates and  
M. Davis and Company, Inc.). The  
project is an evaluation of the Family  
Self-Sufficiency Program operated at  
Public Housing Agencies (PHAs) across  
the United States. The study will use  
random-assignment methods to evaluate  
the effectiveness of the program. FSS  
has operated since 1992 and serves  
voucher holders and residents of public  
housing. The FSS model is essentially a  
five-year program, and includes case  
management plus an escrow account.  
FSS case managers create a plan with  
families to achieve goals and connect  
with services that will enhance their  
employment opportunities. Families  
accrue money in their escrow accounts  
as they increase their earnings. To date,  
HUD has funded two other studies of  
the FSS program, but neither can  
indicate how well families would have  
done in the absence of the program. A  
random assignment model is needed  
because participant self-selection into  
Family Self Sufficiency program limits  
the ability to know whether program  
features rather than the characteristics  
of the participating families caused  
tenant income gains. Random  
assignment will limit the extent to  
which selection bias is driving observed  
results. The demonstration will  
document the progress of a group of FSS  
participants from initial enrollment to  
program completion (or exit). The intent  
is to gain a deeper understanding of the  
program and illustrate strategies that  
assist participants to obtain greater  
economic independence. While the  
main objective of FSS is stable, suitable  
employment, there are many interim  
outcomes of interest, including: Getting  
a first job; getting a higher paying job;  
self-employment/small business  
ownership; no longer needing benefits  
provided under one or more welfare  
programs; obtaining additional  
education, whether in the form of a high  
school diploma, higher education  
degree, or vocational training; buying a  
home; buying a car; setting up savings  
accounts; or accomplishing similar goals  
that lead to economic independence.

Data collection will include the  
families that are part of the treatment  
and control groups. Data will be  
gathered through surveys.

Members of the affected public:

Families receiving subsidized housing and enrolled in the FSS program (treatment group) .....	1,281
Families receiving subsidized housing and not enrolled in the FSS program (control group) .....	1,270

Estimation of the total number of respondents, frequency of response, and hours needed to prepare the information collection including number of hours of response:

Instrument	Number of respondents	Number responses per respondent	Average burden/response (in hours)	Total burden hours
36-Month Survey .....	2,551	1	45 minutes (.75) .....	1,913
Total .....				1,913

*Status of the proposed information collection:* Pending OMB approval.

**Authority:** Title 13 U.S.C. 9(a), and title 12, U.S.C., section 1701z-1 *et seq.*

Dated: April 21, 2016.

**Katherine M. O'Regan,**  
Assistant Secretary for Policy Development and Research.
