

request. HUD's denial of a request for reconsideration shall constitute final agency action.

(4) If HUD approves the Indian tribe or TDHE's appeal, HUD will adjust to the Indian tribe's or TDHE's subsequent fiscal year allocation to include only the disputed fiscal year(s).

(f) In the event HUD questions whether the data contained in the formula accurately represents the Indian tribe's need, HUD shall request the Indian tribe to submit supporting documentation to justify the data and, if applicable, to provide a commitment to serve the population indicated in the geographic area.

■ 12. Add § 1000.342 to subpart D to read as follows:

**§ 1000.342 Are undisbursed IHBG funds a factor in the grant formula?**

Yes, beginning fiscal year 2018. After calculating the initial allocation calculation for the current fiscal year by calculating FCAS, Need, the 1996 Minimum, and repayments or additions for past over- or under-funding for each Indian tribe, the undisbursed funds factor shall be applied as follows:

(a) The undisbursed funds factor applies if an Indian tribe's initial allocation calculation is \$5 million or more and the Indian tribe has undisbursed IHBG funds in an amount that is greater than the sum of the prior 3 years' initial allocation calculations.

(b) If subject to paragraph (a) of this section, the Indian tribe's grant allocation shall be the greater of the initial allocation calculation minus the amount of undisbursed IHBG funds that exceed the sum of the prior 3 years' initial allocation calculations, or its 1996 Minimum.

(c) For purposes of this section, "undisbursed IHBG funds" means the amount of IHBG funds allocated to an Indian tribe in HUD's line of credit control system (or successor system) on October 1 of the fiscal year for which the allocation is made. For Indian tribes under an umbrella TDHE (a recipient that has been designated to receive grant amounts by more than one Indian tribe), if the Indian tribe's initial allocation calculation is \$5 million or more, its undisbursed IHBG funds is the amount calculated by multiplying the umbrella TDHE's total balance in HUD's line of credit control system (or successor system) on October 1 of the fiscal year for which the allocation is made by a percentage based on the Indian tribe's proportional share of the initial allocation calculation of all tribes under the umbrella.

(d) Amounts subtracted from an initial allocation calculation under this

section shall be redistributed under the Need component among all Indian tribes not subject to paragraph (a) of this section (while also retaining the 1996 Minimum).

Dated: May 4, 2016.

#### Synopsis

By this Public Notice, we seek comment on the appropriate schedule for implementing carrier identification requirements for digital video uplink transmissions, as adopted by the Commission in August 2013.

*Background.* Since 1991, the Commission has required satellite uplink transmissions carrying "broadband" video information to include a signal identifying the source of the transmission. This signal, produced by an Automatic Transmitter Identification System (ATIS), allows satellite operators that may be receiving interference from the video transmission to more quickly identify and address the source of interference.

In August 2013, the Commission updated the ATIS requirement in 47 CFR 25.281 to better accommodate digitally modulated video transmissions. *Comprehensive Review of Licensing and Operating Rules for Satellite Services*, Report and Order, FCC 13-111, 28 FCC Rcd 12403, 12466-70, paras. 208-220 (2013). Specifically, for digital video uplinks from temporary-fixed earth stations, the Commission replaced the requirement to transmit a 7.1 megahertz subcarrier signal with a requirement to include a spread-spectrum ATIS message conforming to a modern industry standard.

The record in the 2013 proceeding indicated that the new ATIS requirement for digital video could be accommodated by replacing the equipment with new facilities incorporating an embedded modulator or upgrading existing earth station equipment with an external modulator. Based on this record, the Commission adopted a two-year grace period for operators to bring their equipment into compliance with the new ATIS rule in 47 CFR 25.281(b). The Commission concluded that two years was a sufficient implementation period, and declined a proposed five-year phase-in schedule, because it was not requiring the ATIS to be embedded and therefore not requiring existing facilities to be replaced.

Recent information from affected earth station operators, and independent staff market surveillance, indicate that

suitable external modulators have not become widely available. Many earth station operators would therefore be unable to retro-fit their current transmitting equipment in order to comply with 47 CFR 25.281(b), and instead would need to replace the equipment at considerably greater expense than anticipated when the rule was adopted.

**Temporary Waiver Order.** On March 4, 2016, we issued a waiver of 47 CFR 25.281(b) for a period of one year, beginning on September 3, 2016, the date for compliance with the new requirement. *Temporary Waiver of Section 25.281(b) Transmitter Identification Requirements for Video Uplink Transmissions*, Order, DA 16-222 (IB 2016). The waiver was adopted to allow additional time for comment and development of an updated record on the appropriate implementation schedule for the new ATIS requirement.

**Comment Sought.** We now seek comment on the appropriate timeframe for implementation of the carrier identification requirement for digital video transmissions. In particular, we invite comment on the costs to both earth station operators and space station operators of further delaying the effective date of the requirement. We specifically request that commenters provide supporting materials such as technical documentation and price quotations for equipment compliant with the carrier identification requirement. We note that the World Broadcasting Unions have resolved that the ATIS (Carrier ID) requirement be implemented by no later than January 1, 2018.
