The applicant requests authorization for the continued maintenance of three non-releasable Guadalupe fur seals at Sea World of California (and other Sea World facilities if relocation is necessary) for enhancement purposes. These animals were taken into captivity by the Marine Mammal Health and Stranding Network and were deemed non-releasable. These animals are currently held by Sea World of California under Permit No. 14186–01. Furthermore, the applicant has agreed to provide additional space for future non-releasable Guadalupe fur seals, if necessary (up to 6 total animals at any given time). These animals would be provided with daily husbandry care and treatment for current medical conditions, routine veterinary care, and would be made available for opportunistic research. The applicant has requested a five-year permit.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.
