

DEPARTMENT OF ENERGY**10 CFR Chs. II, III, and X****48 CFR Ch. 9****Unified Agenda of Federal Regulatory and Deregulatory Actions****AGENCY:** Department of Energy.**ACTION:** Semi-annual regulatory agenda.

SUMMARY: The Department of Energy (DOE) has prepared and is making available its portion of the semi-annual Unified Agenda of Federal Regulatory and Deregulatory Actions (Agenda) pursuant to Executive Order 12866, "Regulatory Planning and Review," and the Regulatory Flexibility Act.

SUPPLEMENTARY INFORMATION: The Agenda is a government-wide

compilation of upcoming and ongoing regulatory activity, including a brief description of each rulemaking and a timetable for action. The Agenda also includes a list of regulatory actions completed since publication of the last Agenda. The Department of Energy's portion of the Agenda includes regulatory actions called for by the Energy Independence and Security Act of 2007, the American Energy Manufacturing Technical Corrections Act and programmatic needs of DOE offices.

The Internet is the basic means for disseminating the Agenda and providing users the ability to obtain information from the Agenda database. DOE's Spring 2016 Agenda can be accessed online by going to www.reginfo.gov. Agenda entries reflect

the status of activities as of approximately May 31, 2016.

Publication in the **Federal Register** is mandated by the Regulatory Flexibility Act (5 U.S.C. 602) only for Agenda entries that require either a regulatory flexibility analysis or periodic review under section 610 of that Act. DOE's regulatory flexibility agenda is made up of five rulemakings setting energy efficiency standards for the following products:

- General Service Lamps
- Walk-In Coolers and Freezers
- Commercial Packaged Boilers
- Cooking Products
- Residential Furnaces
- Miscellaneous Refrigeration Equipment

P. Croley,
General Counsel.

Proposed Rule Stage

91. Energy Conservation Standards for Commercial Packaged Boilers

Legal Authority: 42 U.S.C. 6313(a)(6)(C)

Abstract: EPCA, as amended by AEMTCA, requires the Secretary to determine whether updating the statutory energy conservation standards for commercial packaged boilers is technically feasible and economically justified and would save a significant amount of energy. If justified, the Secretary will issue amended energy conservation standards for such equipment.

92. Energy Conservation Standards for General Service Lamps

Legal Authority: 42 U.S.C. 6295(i)(6)(A) and (B)

Abstract: Amendments to Energy Policy and Conservation Act (EPCA) in the Energy Independence and Security Act of 2007 direct DOE to conduct two rulemaking cycles to evaluate energy conservation standards for GSLs, the first of which must be initiated no later than January 1, 2014. EPCA specifically states that the scope of the rulemaking is not limited to incandescent lamp technologies. EPCA also states that DOE must consider in the first rulemaking cycle the minimum backstop requirement of 45 lumens per watt for general service lamps (GSLs) effective January 1, 2020. This rulemaking constitutes DOE's first rulemaking cycle.

93. Test Procedures for Light-Emitting Diode Lamps

Legal Authority: 42 U.S.C. 6294(a)(6); 42 U.S.C. 6293

Abstract: EPCA, as amended by EISA 2007, requires the Secretary to create test procedures for light emitting diode (LED) lamps that accurately represent the energy consumption of this product. This rulemaking is supporting the implementation by the Federal Trade Commission of labeling provisions under 42 U.S.C. 6294(a)(6), as well as the ongoing general service lamps rulemaking, which includes LED lamps.

94. Energy Efficiency Standards for Residential Dehumidifiers

Legal Authority: 42 U.S.C. 6295(m) and (cc)

Abstract: EPCA requires the Secretary to determine whether updating the statutory energy conservation standards for residential dehumidifiers is technically feasible and economically justified and would result in significant energy savings. If these criteria are met, the Secretary will issue amended energy conservation standards.

Abstract: EPCA, as amended by AEMTCA, requires the Secretary to determine whether updating the statutory energy conservation standards for commercial warm air furnaces is technically feasible and economically justified and would save a significant amount of energy. If justified, the Secretary will issue amended energy conservation standards for this type of equipment. On April 1, 2015, DOE published a notice announcing the creation of a working group under the Appliance Standards Federal Rulemaking Advisory Committee (ASRAC). (80 FR 17363) to potentially develop negotiated standards. DOE has since published a direct final rule and supplemental notice of proposed rulemaking that embodies the standards-related aspects of the recommendations submitted to (and approved by) ASRAC.

97. Energy Conservation Standards for Commercial and Industrial Pumps

Legal Authority: 42 U.S.C. 6311(1)(A)
Abstract: EPCA, as amended, authorizes the Secretary to determine whether establishing energy conservation standards for commercial and industrial pumps is technically feasible and economically justified and would save a significant amount of energy. On June 13, 2013, DOE published a notice of intent to establish a negotiated rulemaking working group for the commercial and industrial pumps rulemaking under the Appliance Standards and Rulemaking Federal Advisory Committee (ASRAC) in accordance with the Federal Advisory Committee Act (FACA) and the Negotiated Rulemaking Act (NRA) to negotiate proposed Federal standards for the energy efficiency of commercial and industrial pumps (78 FR 44036). The purpose of the working group was to discuss and, if possible, reach consensus on a proposed rule for the energy efficiency of commercial and industrial pumps. The working group negotiated standard levels that were accepted by ASRAC on July 7, 2014. As a result, DOE has proposed to adopt the working groups' recommendations.

Abstract: The Department of Energy is amending its regulation related to workplace substance abuse programs at DOE sites. The proposed amendments would address drug and alcohol abuse; testing workers in certain sensitive positions; development and approval of a workplace substance abuse program; employee assistance programs; and training. The proposed amendments would improve and strengthen the substance abuse programs; and enhance consistency with advances in similar rules and other Federal drug and alcohol programs that place similar requirements on the private sector.
