Information and Communication Technologies and Services Trade Mission to Singapore and Vietnam March 6–10, 2017

AGENCY: International Trade Administration, Department of Commerce.

ACTION: Notice.

SUMMARY:

Mission Description

The United States Department of Commerce, International Trade Administration (ITA) is organizing an Informational and Technologies (ICT) Trade Mission to Singapore and Vietnam from March 6–10th, 2017. The purpose of the mission is to introduce U.S. firms to Singapore and Vietnam's rapidly expanding ICT sector, and to assist U.S. companies in pursuing export opportunities in this sector. The mission is designed for U.S. ICT companies. The mission also will help U.S. companies already doing business in Singapore and Vietnam increase their footprint and deepen their business interests. With the Administration's emphasis on enacting the Trans-Pacific Partnership, medium and long-term opportunities will continue for American companies that strategically position in these markets. The mission will not be an executive-led mission.

This trade mission focus on recruiting U.S. veteran-owned companies^{1 2} and others who play a significant role in information communication and telecom infrastructure development, by helping U.S. companies get ahead of their global competitors in the ASEAN markets that present excellent market opportunities in these sectors.

Target sectors holding high potential for U.S. exporters include fixed and mobile telephone networks, Internet, satellites, broadcasting, Information Technology (IT) hardware and software, and in any sub-sector related to the telecommunications industry. Mission participants will benefit from country briefings, one-on-one appointments with prospective business contacts, and high-level meetings with government officials and business leaders.

The mission will help participating firms and associations/organizations gain market insights, make industry contacts, solidify business strategies, and advance specific projects, with the goal of increasing U.S. ICT exports. The mission will include market briefings, one-on-one business appointments with pre-screened potential buyers, agents, distributors, industry leaders, and joint venture partners; meetings with host governments; and networking events. Participating in an official U.S. industry delegation, rather than traveling on their own, will enhance the companies' ability to identify opportunities in Vietnam and Singapore.
