

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Personal Protective Equipment (PPE) for General Industry Standard information collections codified in regulations 29 CFR part 1910, subpart I. The Standard requires that PPE—including equipment for eyes, face, head, and extremities; protective clothing; respiratory devices; and protective shields and barriers—be provided, used, and maintained in a sanitary and reliable condition wherever it is necessary by reason of hazards of processes or environment, chemical hazards, radiological hazards, or mechanical irritants encountered in a manner capable of causing injury or impairment in the function of any part of the body through absorption, inhalation or physical contact. This ICR covers hazard assessment and verification records and record disclosure during inspections. Occupational Safety and Health Act sections 2(b)(9) and 8(g)(2) authorize this information collection. See 29 U.S.C. 651(b)(9) and 657(g)(2).

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on March 2, 2016 (81 FR 10918).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1218–0205. The OMB is particularly interested in comments that:
