Title: 2017 Census of Agriculture.

OMB Control Number: 0535-0226.

Summary of Collection: The National Agricultural Statistics Service (NASS) is responsible for conducting the Census of Agriculture under the authority of the Census of Agriculture Act of 1997, Public Law 105-113. The census of agriculture is required by law every five years and is the primary source of statistics concerning the nation's agricultural industry. It provides the only basis of consistent, comparable data throughout the more than 3,000 counties in the 50 States and Puerto Rico. For the outlying areas of American Samoa, Commonwealth of the Northern Mariana Islands, Guam and U.S. Virgin Islands, it is the only source of consistent, comparable agricultural data.

Need and Use of the Information: The data collection for the censuses of agriculture for the 50 states and Puerto Rico will be conducted primarily by mail-out/mail-back procedures (US Postal Service), internet, and with phone and field enumeration for targeted non-respondents. Data collection for Guam, the U.S. Virgin Islands, Commonwealth of the Northern Mariana Islands and American Samoa will be conducted using direct enumeration methods only. The census provides data on the number and types of farms, land use, crop area and selected production, livestock inventory and sales, production contracts, production expenses, farm-related income, and other demographic characteristics. This information will serve as the basis for many agriculturally-based decisions. Census information is used by the

Administration, Congress, and the Federal Agencies to formulate and evaluate national agricultural programs and policy. The Department of Agriculture and the Bureau of Economic Analysis use Census data to compile farm sector economic indicators. State and local governments use Census data in the development of local agricultural programs.

Description of Respondents: Farms; Individuals or households.

Number of Respondents: 4,438,800.

Frequency of Responses: Reporting: Other (Every 5 years).
