To facilitate the functioning of the Committee, working group (*i.e.*, subcommittees) may be formed with the approval of the Department of Energy. The objectives of the working groups are to make recommendations to the parent committee with respect to particular matters related to the responsibilities of the parent committee. Such working groups may not work independently of the chartered committee and must report their recommendations and advice to the full committee for full deliberation and discussion. Subcommittee members are appointed with DOE approval.

DOE is hereby soliciting nominations for members of the Appliance Standards and Rulemaking Federal Advisory Committee. The Committee is expected to be continuing in nature. Members will be selected with a view toward achieving a balanced committee of experts in fields relevant to energy efficiency, appliance and commercial

Committee members will serve for a term of three years or less and may be reappointed for successive terms, with no more than two successive terms. Appointments may be made in a manner that allows the terms of the members serving at any time to expire at spaced intervals, so as to ensure continuity in the functioning of the Committee. Some Committee members may be appointed as special Government employees, experts in fields relevant to energy efficiency and appliance and commercial equipment standards; or as representatives of industry (including manufacturers and trade associations representing manufacturers, component manufacturers and related suppliers, and retailers), utilities, energy efficiency/environmental advocacy groups and consumers. Members of the Committee will serve without compensation; however, each member may be reimbursed in accordance with Federal Travel Regulations for authorized travel and per diem expenses incurred while attending Committee meetings.

All nomination information should be provided in a single, complete package

by the deadline specified in this notice. Nominations packages should be submitted by either mail or electronically, but not by both methods. Should more information be needed, DOE staff will contact the nominee, obtain information from the nominee's past affiliations or obtain information from publicly available sources, such as the internet. The selection team will seek balanced viewpoints and consider many criteria, including: (a) Scientific or technical expertise, knowledge, and experience; (b) stakeholder representation; (c) availability and willingness to serve; and (d) skills working in committees, working groups and advisory panels. The selection team will make recommendations regarding membership to the Secretary of Energy for review and selection of Committee members.
