

3. *Undecided*—In these cases, the documentation submitted did not allow for a conclusive decision by reviewers. When crash reviews are undecided, the crash is not removed from SMS and the severity weighting is unchanged. The crash will still be listed on the Agency's Web sites with a note that reads, "FMCSA reviewed this crash and could not make a preventability determination based on the evidence provided."

In keeping with the Agency's current preventability guidance, if a post-crash inspection determines that the motor carrier, vehicle, or driver was in violation of an out-of-service regulation at the time of the crash, the crash will be determined to have been "Preventable."

D. Review

The public, including motor carriers and drivers, would be allowed to seek review of the RDR decision using the DataQs system and processes currently in place.

E. Quality Controls

In order to ensure the quality and consistency of the reviews, FMCSA will build a quality control standard into either its contract or its internal procedures. For example, it is anticipated that a process will be established to require a certain percent of reviews to be checked by a different reviewer to confirm consistent decisions are made. When a different conclusion is reached by the second reviewer, a supervisor will be responsible for reviewing the case and rendering a decision.

F. Fraudulent Requests

In accordance with the Agency's existing DataQs program, any intentionally false or misleading statement, representation, or document that is provided in support of an RDR may result in prosecution for a violation of Federal law punishable by a fine of not more than \$10,000.00 or imprisonment for not more than 5 years, or both (18 U.S.C. 1001).

G. Agency Analysis

Throughout this test period, FMCSA will maintain data so that at the conclusion of the test, the Agency can conduct analysis. It is expected that the Agency's analysis would include, but not be limited to, cost of operating the test, future crashes of carriers that submitted RDRs, future crash rates of motor carriers with preventable crashes, and impacts to SMS crash rates. The analysis will be used to examine ATA's assertion that crashes of these types are not the responsibility of the motor

carrier, and inform future policy decisions on this issue.

H. Testing Period

FMCSA proposes that the minimum time period for this crash preventability test would be 24 months.

Issued under the authority delegated in 49 CFR 1.87 on: July 5, 2016.

T.F. Scott Darling, III,

Acting Administrator.

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[FMCSA Docket No. FMCSA-2015-0340]

Qualification of Drivers; Exemption Applications; Diabetes Mellitus

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of final disposition.

SUMMARY: FMCSA confirms its decision to exempt 55 individuals from its rule prohibiting persons with insulin-treated diabetes mellitus (ITDM) from operating commercial motor vehicles (CMVs) in interstate commerce. The exemptions enable these individuals to operate CMVs in interstate commerce.

DATES: The exemptions were effective on January 29, 2016. The exemptions expire on January 29, 2018.

FOR FURTHER INFORMATION CONTACT: Christine A. Hydock, Chief, Medical Programs Division, (202) 366-4001, fmcamedical@dot.gov, FMCSA, Department of Transportation, 1200 New Jersey Avenue SE., Room W64-113, Washington, DC 20590-0001. Office hours are from 8:30 a.m. to 5 p.m. e.t., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

I. Electronic Access

You may see all the comments online through the Federal Document Management System (FDMS) at: <http://www.regulations.gov>.

Docket: For access to the docket to read background documents or comments, go to <http://www.regulations.gov> and/or Room W12-140 on the ground level of the West Building, 1200 New Jersey Avenue SE., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

Privacy Act: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its

rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at www.dot.gov/privacy.

II. Background

On December 29, 2015, FMCSA published a notice of receipt of Federal diabetes exemption applications from 55 individuals and requested comments from the public (80 FR 81415). The public comment period closed on January 28, 2016.

FMCSA has evaluated the eligibility of the 55 applicants and determined that granting the exemptions to these individuals would achieve a level of safety equivalent to or greater than the level that would be achieved by complying with the current regulation 49 CFR 391.41(b)(3).

III. Diabetes Mellitus and Driving Experience of the Applicants

The Agency established the current requirement for diabetes in 1970 because several risk studies indicated that drivers with diabetes had a higher rate of crash involvement than the general population. The diabetes rule provides that "A person is physically qualified to drive a commercial motor vehicle if that person has no established medical history or clinical diagnosis of diabetes mellitus currently requiring insulin for control" (49 CFR 391.41(b)(3)).

FMCSA established its diabetes exemption program, based on the Agency's July 2000 study entitled "A Report to Congress on the Feasibility of a Program to Qualify Individuals with Insulin-Treated Diabetes Mellitus to Operate in Interstate Commerce as Directed by the Transportation Act for the 21st Century." The report concluded that a safe and practicable protocol to allow some drivers with ITDM to operate CMVs is feasible. The September 3, 2003 (68 FR 52441), **Federal Register** notice in conjunction with the November 8, 2005 (70 FR 67777), **Federal Register** notice provides the current protocol for allowing such drivers to operate CMVs in interstate commerce.

These 55 applicants have had ITDM over a range of 1 to 37 years. These applicants report no severe hypoglycemic reactions resulting in loss of consciousness or seizure, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning symptoms, in the past 12 months and no recurrent (2 or more) severe

hypoglycemic episodes in the past 5 years. In each case, an endocrinologist verified that the driver has demonstrated a willingness to properly monitor and manage his/her diabetes mellitus, received education related to diabetes management, and is on a stable insulin regimen. These drivers report no other disqualifying conditions, including diabetes-related complications. Each meets the vision requirement at 49 CFR 391.41(b)(10).

The qualifications and medical condition of each applicant were stated and discussed in detail in the December 29, 2015, **Federal Register** notice and they will not be repeated in this notice.

IV. Discussion of Comments

FMCSA received no comments in this proceeding.

V. Basis for Exemption Determination

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the diabetes requirement in 49 CFR 391.41(b)(3) if the exemption is likely to achieve an equivalent or greater level of safety than would be achieved without the exemption. The exemption allows the applicants to operate CMVs in interstate commerce.

To evaluate the effect of these exemptions on safety, FMCSA considered medical reports about the applicants' ITDM and vision, and reviewed the treating endocrinologists' medical opinion related to the ability of the driver to safely operate a CMV while using insulin.

Consequently, FMCSA finds that in each case exempting these applicants from the diabetes requirement in 49 CFR 391.41(b)(3) is likely to achieve a level of safety equal to that existing without the exemption.

VI. Conditions and Requirements

The terms and conditions of the exemption will be provided to the applicants in the exemption document and they include the following: (1) That each individual submit a quarterly monitoring checklist completed by the treating endocrinologist as well as an annual checklist with a comprehensive medical evaluation; (2) that each individual reports within 2 business days of occurrence, all episodes of severe hypoglycemia, significant complications, or inability to manage diabetes; also, any involvement in an accident or any other adverse event in a CMV or personal vehicle, whether or not it is related to an episode of hypoglycemia; (3) that each individual provide a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual

medical examination; and (4) that each individual provide a copy of the annual medical certification to the employer for retention in the driver's qualification file, or keep a copy in his/her driver's qualification file if he/she is self-employed. The driver must also have a copy of the certification when driving, for presentation to a duly authorized Federal, State, or local enforcement official.

VII. Conclusion

Based upon its evaluation of the 55 exemption applications, FMCSA exempts the following drivers from the diabetes requirement in 49 CFR 391.41(b)(10), subject to the requirements cited above 49 CFR 391.64(b)).

William G. Adams (CA)
Elmer W. Barrall (DE)
Earl Bland (MO)
Richard W. Bostwick, II (MA)
Kevin Bracken (PA)
Donald L. Callahan (KY)
Mark A. Carlson (MI)
Charles W. Clark (TX)
Korey D. Clark (MI)
Michael A. Craig (NC)
Roderick E. Dean (NJ)
Mary K. Dillon (PA)
Eugene N. Dirl (PA)
Kevin F. Dykes (MA)
Richard L. Engle (KY)
Christopher J. Frank (NY)
Matthew E. Fry (KS)
Al Glover, Jr. (LA)
Jimmy H. Goacher (NC)
Jim B. Gonzalez (OR)
Nathaniel K. Hamilton (TX)
Michael D. Henry (OH)
Douglas E. Hensley (MO)
Jon C. Hicks (PA)
Kevin F. Hoffman (PA)
Jerry A. Huffman (NC)
Daurell A. Jones (MD)
Larry C. Krueger (NE)
Chad M. Kuck (AK)
Stephen B. Lenhart (OH)
Donald R. Leonard, Jr. (NH)
Jack D. McAlister (NH)
John K. Moorhead (KY)
Sandra R. Moultrie (GA)
John M. Olmstead (IN)
Dustin M. Parker (VT)
Patrick E. Patch (NY)
Howard L. Peacock (KS)

Chauncey W. Pittman (IN)
William Raben (GA)
James E. Richardson (NY)
Gerald C. Rosencrans (PA)
Henry J. Russo (NJ)
Richard G. Schumann (NJ)
Jefferson L. Smith (MA)
Troy T. Sunnarborg (MN)
Ohnedaruth M. Swain, Sr. (PA)
George W. Toro (NY)

Hugh S. Wacker (IL)
Kristopher L. Ward (WI)
David C. Wheat (TX)
William R. White (MI)
Curtis L. Worsfold (NE)
Jason D. Zagorski (NC)

In accordance with 49 U.S.C. 31136(e) and 31315 each exemption is valid for two years unless revoked earlier by FMCSA. The exemption will be revoked if the following occurs: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315. If the exemption is still effective at the end of the 2-year period, the person may apply to FMCSA for a renewal under procedures in effect at that time.

Issued on: July 5, 2016.

Larry W. Minor,

Associate Administrator for Policy.

BILLING CODE 4910-EX-P

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2016-0030]

Qualification of Drivers; Exemption Applications; Vision

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of applications for exemptions; request for comments.

SUMMARY: FMCSA announces receipt of applications from 18 individuals for exemption from the vision requirement in the Federal Motor Carrier Safety Regulations. They are unable to meet the vision requirement in one eye for various reasons. The exemptions will enable these individuals to operate commercial motor vehicles (CMVs) in interstate commerce without meeting the prescribed vision requirement in one eye. If granted, the exemptions would enable these individuals to qualify as drivers of commercial motor vehicles (CMVs) in interstate commerce.

DATES: Comments must be received on or before August 11, 2016. All comments will be investigated by FMCSA. The exemptions will be issued the day after the comment period closes.

ADDRESSES: You may submit comments bearing the Federal Docket Management System (FDMS) Docket No. FMCSA-2016-0030 using any of the following methods:
