**DATES:** *Effective:* July 13, 2016.

**MEETING DATE AND LOCATION:** This meeting will be held on Monday, August 22, 2016, from 1:00 p.m. until 4:30 p.m. Eastern Standard Time (EST), at the General Services Administration building, 1800 F Street NW., Washington, DC 20405.

**SUPPLEMENTARY INFORMATION:** This event is hosted by the Unified Shared Service Management (USSM) office ([www.ussm.gov](http://www.ussm.gov)), which was established in October of 2015 to enable the delivery of high-quality, high-value shared services that improve performance and efficiency throughout government.

This event is intended to provide industry partners with an interactive overview of how the ecosystem for shared services is evolving in the Federal Government. This will also be an opportunity for the Government to hear feedback and best practices from industry, particularly those outlined in OMB Memorandum 16-11, Improving Administrative Functions through Shared Services (<https://www.whitehouse.gov/sites/default/files/omb/memoranda/2016/m-16-11.pdf>). This event is not related to a specific RFI, RFP, or solicitation.

Industry partners that offer services and/or systems for the migration, and/or modernization, and/or operations and maintenance of mission support functions in the public and private sectors, are invited to attend. The specific focus will be on acquisition, financial management, grants management, human resources, travel, and the technology or services that support these functions.

Topics to be discussed include the following:

- *Modernization and Migration Management (M3) Framework:* A new framework, which includes a playbook and investment review process that agencies will follow when modernizing and/or migrating missions support functions. M3 is designed to help the

government achieve successful outcomes and reduce risk during administrative system and service modernizations and migrations.

- *ProviderStat:* A performance framework for Shared Service Providers that drives achievement of goals by establishing an annual cycle, in which executives review data, assess performance, discuss progress, and determine corrective paths forward. This will include an annual customer satisfaction survey and the establishment of criteria for high performing providers.

- *Acquisition Vision for the Ecosystem:* A discussion of the existing acquisition environment, common acquisition challenges, and strategies for harnessing industry solutions and capabilities throughout the shared services lifecycle.

Participants should review the M3 Framework and other supporting materials about USSM initiatives prior to the event by visiting: <https://www.ussm.gov>.

*Registration:* Participants may register at: [https://meet.gsa.gov/e4xy2fqjkl6/event/event\\_info.html](https://meet.gsa.gov/e4xy2fqjkl6/event/event_info.html).

Each company will be limited to two participants. Preference is for those individuals leading migrations and providing service delivery, as there will be breakout groups where USSM will be seeking industry thought leadership. Seating will be capped at 120 people on a first-come, first-served basis. Registrations must be completed by 5:00 p.m., EST on Monday, August 8, 2016.

### Information Collection Request Title: Sustainability Study of Programs Funded by OAH in 2010 (Sustainability Study)

*Abstract:* The Office of Adolescent Health (OAH), U.S. Department of Health and Human Services (HHS) is requesting approval by OMB on a new collection. The Sustainability study is a key piece of OAH's broad and ongoing effort to comprehensively evaluate all of its funding efforts which consist of: (1) The Teen Pregnancy Prevention Program (TPP); the (2) Pregnancy Assistance Fund (PAF); and the CDC Communitywide program funded in collaboration with the Centers for Disease Control (CDC).

*The proposed information request includes the instrument that will collect data on:* (1) Whether and how federally-funded programs have been sustained; (2) factors affecting program sustainability; (3) methods and strategies employed by grantees to sustain programs; (4) support and technical assistance that grantees received related to sustaining the programs; and (5) key lessons learned based on the outcomes of these efforts. The data will be analyzed and incorporated into study deliverables that clearly describe former grantees' sustainability efforts for all audiences and highlight key challenges, successes, and lessons learned for future funding and program implementation.

The data will be used for the study team to identify key factors in program sustainability, the strategies that either worked or did not work in sustaining programs over time, and the types of support and assistance grantees required in order to sustain programs. Collecting this data is crucial to closing an existing gap in OAH knowledge about how to support the sustainability efforts of

current and future PAF, TPP, and CDC Communitywide grantees.

*Likely Respondents:* Program administrators at up to 50 grantee organizations.
