Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules, From the People's Republic of China: Final Results of Countervailing Duty Administrative Review; 2013

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) has completed its administrative review of the countervailing duty (CVD) order on crystalline silicon photovoltaic cells, whether or not assembled into modules (solar cells), from the People's Republic of China (the PRC) for the period of review (POR) covering January 1, 2013, through December 31, 2013. On January 8, 2016, we published the preliminary results of this review.¹

¹ See *Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules, From the People's Republic of China: Preliminary Results of*

We provided interested parties with an opportunity to comment on the *Preliminary Results*. Our analysis of the comments submitted resulted in a change to the net subsidy rates for respondent JA Solar Technology Yangzhou Co., Ltd. and its crossed-owned companies (collectively, JA Solar). The final net subsidy rates are listed below in the section entitled, "Final Results of the Review."

Withdrawals of certain requests for review were timely filed and, as a result, we rescinded this administrative review with respect to certain companies, pursuant to 19 CFR 351.213(d)(1), and proceeded with the review of JA Solar, Changzhou Trina Solar Energy Co., Ltd. (Trina), and Wuxi Suntech Power Co., Ltd. (Suntech).²

DATES: Effective Date: July 19, 2016.

FOR FURTHER INFORMATION CONTACT: David Lindgren, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone (202) 482-3870.

The signed Issues and Decision Memorandum and the electronic version of the Issues and Decision Memorandum are identical in content.

Methodology

The Department conducted this review in accordance with section 751(a)(1)(A) of the Tariff Act of 1930, as amended (the Act). For each of the subsidy programs found countervailable, we determine that there is a subsidy, *i.e.*, a financial contribution from an "authority" that confers a benefit to the recipient, and that the subsidy is specific.⁸ For a full description of the methodology underlying our conclusions, *see* the Issues and Decision Memorandum.

In making these findings, we relied, in part, on facts available and, because the GOC did not act to the best of its ability in responding to the Department's requests for information, we drew an adverse inference in selecting from among the facts otherwise available.⁹ For further information, *see* the section, "Use of Facts Otherwise Available and Adverse Inferences," in the Issues and Decision Memorandum.

Final Results of the Review

In accordance with 19 CFR 351.221(b)(5), we determine a net countervailable subsidy rate of 19.20 percent *ad valorem* for JA Solar. Because the only individually calculated rate in the instant review is not zero, *de minimis*, or based entirely on facts otherwise available, the Department has assigned this rate, calculated for JA Solar, to Trina and Suntech, companies that are subject to this review but were not selected for individual examination in this review.

Company	Subsidy rate (percent)
JA Solar Technology Yangzhou Co., Ltd. and its cross-owned affiliates ¹⁰	19.20

⁸ See sections 771(5)(B) and (D) of the Act regarding financial contribution; section 771(5)(E) of the Act regarding benefit; and section 771(5)(A) of the Act regarding specificity.

⁹ See sections 776(a) and (b) of the Act.

Company	Subsidy rate (percent)
Changzhou Trina Solar Energy Co., Ltd	19.20
Wuxi Suntech Power Co., Ltd	19.20

Disclosure

In accordance with 19 CFR 351.224(b), we will disclose the calculations performed within five days of the publication of this notice in the **Federal Register**.

Assessment Rates

In accordance with 19 CFR 351.212(b)(2), the Department intends to issue appropriate assessment instructions directly to U.S. Customs and Border Protection (CBP) 15 days after the date of publication of these final results, to liquidate shipments of subject merchandise by JA Solar, Trina and Suntech entered, or withdrawn from warehouse, for consumption on or after January 1, 2013, through December 31, 2013, at the percent rates, as listed above for each of the respective companies, of the entered value.

Cash Deposit Instructions

The Department also intends to instruct CBP to collect cash deposits of estimated CVDs in the amount shown above for shipments of subject merchandise by JA Solar, Trina and Suntech entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this review.

For non-reviewed firms, we will instruct CBP to collect cash deposits of estimated CVDs at the most recent company-specific or all-others rate applicable to the company. These cash deposit requirements, when imposed, shall remain in effect until further notice.
