benefits, SSA can prepare the SSA-L106, Letter to Custodian of School Records, or SSA-L706, Letter to Custodian of Birth Records. SSA uses the SSA-L706 to determine the existence of primary evidence of age of SSN applicants. SSA uses both letters to verify with the issuing entity, when

necessary, the authenticity of the record submitted by the SSN applicant or claimant. The respondents are schools, State and local bureaus of vital statistics, and religious entities.

3. Application Status—20 CFR 401.45—0960-0763. Application Status provides users with the capability to check the status of their pending Social Security claims via the National 800 Number Automated Telephone Service. Users need their SSN and a confirmation number to access this information. SSA systems determine the

type of claim(s) the caller filed based upon the information provided. Subsequently, the automated telephone system provides callers with the option to choose the claim for which they wish to obtain status. If the caller applied for multiple claims, the automated system allows the caller to select which claim to obtain status. Once callers select the

claim(s) they are calling about, an automated voice advises them of the status of their claim. The respondents are current Social Security claimants who wish to check on the status of their claims.

Type of Request: Revision on an OMB-approved information collection.
