Louisiana: Final Authorization of State-Initiated Changes and Incorporation by Reference of State Hazardous Waste Management Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: During a review of Louisiana’s regulations, the Environmental Protection Agency (EPA) identified a variety of State-initiated changes to Louisiana’s hazardous waste program under the Resource Conservation and Recovery Act (RCRA), as amended, for which the State had not previously sought authorization. EPA proposes to authorize the State for the program changes. In addition, EPA proposes to codify in the regulations entitled “Approved State Hazardous Waste Management Programs”, Louisiana’s authorized hazardous waste program. The EPA will incorporate by reference into the Code of Federal Regulations (CFR) those provisions of the State regulations that are authorized and that EPA will enforce under RCRA.

SUPPLEMENTARY INFORMATION: For additional information, please see the direct final rule published in the “Rules and Regulations” section of this **Federal Register**. EPA did not make a proposal prior to the direct final rule because we believe this action is not controversial and do not expect comments that oppose it. We have explained the reasons for this authorization in the preamble to the direct final rule. Unless we get written comments which oppose this authorization during the comment period, the direct final rule will become effective 60 days after publication and we will not take further action on this proposal. If we receive comments that oppose this action, we will withdraw the direct final rule and it will not take effect. We will then respond to public comments in a later final rule based on this proposal. You may not have another opportunity for comment. If you want to comment on this action, you must do so at this time.

The purpose of this **Federal Register** document is to codify Louisiana’s base hazardous waste management program and its revisions to that program through RCRA Clusters XXI, XXII including RCRA Cluster XXIII Checklist 229 Exclusions for Solvent Contaminated Wipes. (See 80 FR 55032) September 14, 2015. The EPA provided

notices and opportunity for comments on the Agency's decisions to authorize the Louisiana program, and the EPA is not now reopening the decisions, nor requesting comments, on the Louisiana authorizations as published in FR notices specified in Section I.F of the direct final rule FR document.

This document incorporates by reference Louisiana's hazardous waste statutes and regulations and clarifies which of these provisions are included in the authorized and federally enforceable program. By codifying Louisiana's authorized program and by amending the Code of Federal Regulations, the public will be more easily able to discern the status of federally approved requirements of the Louisiana's hazardous waste management program.

Authority: This action is issued under the authority of sections 2002(a), 3006, and 7004(b) of the Solid Waste Disposal Act, as amended, 42 U.S.C. 6912(a), 6926, and 6974(b).

Dated: August 1, 2016.

Regional Administrator, Region 6.
