Notice of Application for Approval of Discontinuance or Modification of a Railroad Signal System

Under part 235 of Title 49 of the Code of Federal Regulations (CFR) and 49 U.S.C. 20502(a), this document provides public notice that on April 20, 2017, Union Pacific Railroad (UP) petitioned the Federal Railroad Administration (FRA) seeking approval for the discontinuance or modification of a signal system. FRA assigned the petition Docket Number FRA-2017-0034.

Applicant: Union Pacific Railroad, Mr. Kevin D. Hicks, AVP Engineering-Design, 1400 Douglas Street, MS 0910, Omaha, NE 68179.

UP seeks approval to discontinue the traffic control system on the Pequot Subdivision, between milepost (MP) 56.90 and MP 62.75 in the cities of Mazon, Braceville, and Coal City, IL. The subdivision will be converted to a non-signaled industrial lead.

The reason given for the proposed discontinuance is to allow the track currently out of service per Timetable Special Instruction SI-01, between MP 58.69 and MP 62.75, to be re-opened to service an industry project for Hoffman Transportation, whose facility will begin at the end of the proposed industrial lead at MP 59.77. UP will discontinue its common carrier operation between MP 59.77 and MP 56.75 per Surface Transportation Board Docket AB-333X. UP will upgrade and return to service the highway-rail grade crossing warning equipment within the project's limits at MP's 58.69 Spring Road, MP 59.78 Reed Road, and MP 61.71, Braceville Road. The north switch on the BNSF Railway at MP 56.90 was previously removed.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE., W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m.
