BILLING CODE 6560-50-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 64

[Docket ID FEMA-2017-0002; Internal Agency Docket No. FEMA-8481]

Suspension of Community Eligibility

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Final rule.

SUMMARY: This rule identifies communities where the sale of flood insurance has been authorized under the National Flood Insurance Program (NFIP) that are scheduled for suspension on the effective dates listed within this rule because of noncompliance with the floodplain management requirements of the program. If the Federal Emergency Management Agency (FEMA) receives documentation that the community has adopted the required floodplain management measures prior to the effective suspension date given in this rule, the suspension will not occur and a notice of this will be provided by publication in the **Federal Register** on a subsequent date. Also, information identifying the current participation status of a community can be obtained from FEMA's Community Status Book (CSB). The CSB is available at <https://www.fema.gov/national-flood-insurance-program-community-status-book>.

DATES: The effective date of each community's scheduled suspension is the third date ("Susp.") listed in the third column of the tables in the amendment.

FOR FURTHER INFORMATION CONTACT: If you want to determine whether a particular community was suspended on the suspension date or for further information, contact Patricia Suber,

Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 400 C Street SW., Washington, DC 20472, (202) 646-4149.

SUPPLEMENTARY INFORMATION: The NFIP enables property owners to purchase Federal flood insurance that is not otherwise generally available from private insurers. In return, communities agree to adopt and administer local floodplain management measures aimed at protecting lives and new construction from future flooding. Section 1315 of the National Flood Insurance Act of 1968, as amended, 42 U.S.C. 4022, prohibits the sale of NFIP flood insurance unless an appropriate public body adopts adequate floodplain management measures with effective enforcement measures. The communities listed in this document no longer meet that statutory requirement for compliance with program regulations, 44 CFR part 59. Accordingly, the communities will be suspended on the effective date in the third column. As of that date, flood insurance will no longer be available in the community. We recognize that some of these communities may adopt and submit the required documentation of legally enforceable floodplain management measures after this rule is published but prior to the actual suspension date. These communities will not be suspended and will continue to be eligible for the sale of NFIP flood insurance. A notice withdrawing the suspension of such communities will be published in the **Federal Register**.

In addition, FEMA publishes a Flood Insurance Rate Map (FIRM) that identifies the Special Flood Hazard Areas (SFHAs) in these communities. The date of the FIRM, if one has been published, is indicated in the fourth column of the table. No direct Federal financial assistance (except assistance pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act not in connection with a flood) may be provided for construction or acquisition of buildings in identified SFHAs for communities not participating in the NFIP and identified for more than a year on FEMA's initial FIRM for the community as having flood-prone areas (section 202(a) of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4106(a), as amended). This prohibition against certain types of Federal assistance becomes effective for the communities listed on the date shown in the last column. The Administrator finds that notice and public comment procedures under 5 U.S.C. 553(b), are impracticable and unnecessary because communities listed

in this final rule have been adequately notified.

Each community receives 6-month, 90-day, and 30-day notification letters addressed to the Chief Executive Officer stating that the community will be suspended unless the required floodplain management measures are met prior to the effective suspension date. Since these notifications were made, this final rule may take effect within less than 30 days.

National Environmental Policy Act. FEMA has determined that the community suspension(s) included in this rule is a non-discretionary action and therefore the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*) does not apply.

Regulatory Flexibility Act. The Administrator has determined that this rule is exempt from the requirements of the Regulatory Flexibility Act because the National Flood Insurance Act of 1968, as amended, Section 1315, 42 U.S.C. 4022, prohibits flood insurance coverage unless an appropriate public body adopts adequate floodplain management measures with effective enforcement measures. The communities listed no longer comply with the statutory requirements, and after the effective date, flood insurance will no longer be available in the communities unless remedial action takes place.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This rule meets the applicable standards of Executive Order 12988.

Paperwork Reduction Act. This rule does not involve any collection of information for purposes of the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*

List of Subjects in 44 CFR Part 64

Flood insurance, Floodplains.

Accordingly, 44 CFR part 64 is amended as follows:

PART 64—[AMENDED]

■ 1. The authority citation for Part 64 continues to read as follows:

Authority: 42 U.S.C. 4001 *et seq.*; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp.; p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp.; p. 376.

§ 64.6 [Amended]

■ 2. The tables published under the authority of § 64.6 are amended as follows:

| State and location | Community No. | Effective date authorization/cancellation of sale of flood insurance in community | Current effective map date | Date certain Federal assistance no longer available in SFHAs |

[Docket No. 170316276-7483-02]

RIN 0648-XF300

Fisheries of the Northeastern United States; Black Sea Bass Fishery; Revised 2017 and Projected 2018 Specifications

AGENCY: National Marine Fisheries
Service (NMFS), National Oceanic and
Atmospheric Administration (NOAA),
Commerce.

ACTION: Final rule.

SUMMARY: In this rule, NMFS issues revised final 2017 and projected 2018 specifications, and removes a previously implemented commercial fishery accountability measure for the 2017 black sea bass fishery. These actions are necessary to comply with regulations implementing the Summer Flounder, Scup, and Black Sea Bass Fishery Management Plan, and to ensure compliance with the Magnuson-Stevens Fishery Conservation and Management Act. The intended effect of this rule is to revise 2017 black sea bass catch limits to afford more opportunity to obtain optimum yield and to inform the

public of projected changes to 2018 catch limits.

DATES: Effective May 25, 2017, through January 1, 2018.

ADDRESSES: Copies of the specifications document, including the Environmental Assessment (EA), are available on request from Dr. Christopher M. Moore, Executive Director, Mid-Atlantic Fishery Management Council, Suite 201, 800 North State Street, Dover, DE 19901. The specifications document is also accessible via the Internet at <http://www.greateratlantic.fisheries.noaa.gov>.

FOR FURTHER INFORMATION CONTACT:

Cynthia Hanson, Fishery Management Specialist, (978) 281-9180.

SUPPLEMENTARY INFORMATION:

Background

Black sea bass are jointly managed by the Mid-Atlantic Fishery Management Council and the Atlantic States Marine Fisheries Commission as part of the Summer Flounder, Scup, and Black Sea Bass Fishery Management Plan (FMP). Specifications in these fisheries include various catch and landing subdivisions, such as the commercial and recreational sector annual catch limits (ACLs), annual catch targets (ACTs), and sector-specific landing limits (*i.e.*, the commercial fishery quota and recreational harvest limit).

On December 28, 2015, NMFS published a final rule implementing the Council's recommended 2016-2018 specifications for the black sea bass fishery (80 FR 80689). The Council intended to reconsider the specifications set for fishing year 2017 following completion of the next black sea bass benchmark assessment in late 2016/early 2017.

As detailed in the proposed rule (82 FR 17964; April 14, 2017), the peer-reviewed assessment indicates that the black sea bass stock north of Cape

Hatteras is not overfished and overfishing is not occurring. The spawning stock biomass in 2015 (the terminal year of the assessment) was estimated to be 2.3 times higher than the target and the fishing mortality rate was 25 percent below the overfishing threshold. Additional information on the assessment and the Council's recommendation are provided in the proposed rule and not repeated here. This final rule implements the Council's recommended black sea bass specifications for the 2017 fishing year and updates projected specifications for 2018. By providing projected specifications for 2018, NMFS hopes to assist fishery participants in planning ahead. This rule also removes the commercial fishery accountability measure (AM) previously implemented to the 2017 fishing year (81 FR 93842; December 22, 2016). Final 2018 specifications will be published in the **Federal Register** before the start of the 2018 fishing year (January 1, 2018) following the Council's review.

NMFS will consider any needed changes to the 2017 recreational management measures (*i.e.*, minimum fish size, per-angler possession limits, and fishing seasons) for black sea bass through a separate action before summer 2017.

Revised 2017 and Projected 2018 Black Sea Bass Specifications

This rule implements the revised 2017 and projected 2018 acceptable biological catch (ABC) and commercial and recreational catch limits (Table 1), as outlined in the proposed rule.

The revised 2017 specifications represent a 53-percent increase from the previously implemented 2017 commercial quota, and a 52-percent increase in the 2017 recreational harvest limit.

TABLE 1—REVISED BLACK SEA BASS SPECIFICATIONS FOR 2017 AND PROJECTED SPECIFICATIONS FOR 2018

| | Black sea bass specifications | | | | | |
|---------------------------------------|-------------------------------|---------|----------------|-------|------------------|-------|
| | 2017 (Current) | | 2017 (Revised) | | 2018 (Projected) | |
| | million lb | mt | million lb | mt | million lb | mt |
| OFL | n/a | n/a | 12.05 | 5,467 | 10.29 | 4,669 |
| ABC | 6.67 | 3,025 | 10.47 | 4,750 | 8.94 | 4,057 |
| Commercial ACL | 3.15 | 1,428 | 5.09 | 2,311 | 4.35 | 1,974 |
| Commercial ACT | * 3.15 | * 1,428 | 5.09 | 2,311 | 4.35 | 1,974 |
| Estimated Commercial Discards | 0.44 | 198 | 0.97 | 442 | 0.83 | 377 |
| Commercial Quota | * 2.71 | * 1,226 | 4.12 | 1,869 | 3.52 | 1,596 |
| Recreational ACL | 3.52 | 1,597 | 5.38 | 2,439 | 4.59 | 2,083 |
| Recreational ACT | 3.52 | 1,597 | 5.38 | 2,439 | 4.59 | 2,083 |
| Estimated Recreational Discards | 0.70 | 317 | 1.09 | 494 | 0.93 | 422 |
| Recreational Harvest Limit | 2.82 | 1,280 | 4.29 | 1,945 | 3.66 | 1,661 |

* These commercial catch specifications were reduced by the AM implemented in December, 2016. The revised 2017 specifications rescind the AM reductions (see next section for details).
